Trust Land Transfer (08-2-005)

The appropriations in this section are subject to the following conditions and limitations:

(1) The total appropriation is provided to the department solely to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, or recreation purposes. The approved list of projects is identified in the LEAP capital document 2007-4, developed March 20, 2007.

(2) Property transferred under this section shall be appraised and transferred at fair market value. The value of the timber transferred shall be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040. The value of the land transferred shall be deposited in the natural resources real property replacement account. These funds shall be expended by the department for the exclusive purpose of acquiring forest lands of equal value to be managed as common school trust land.

(3) Property subject to lease agreements under this section shall be appraised at fair market value. Lease payments shall be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and shall be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) The department shall execute trust land transfers that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the total value of transferred property is timber value and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers.

(9) On June 30, 2009, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction account and the appropriations in this section shall be reduced by an equivalent amount.

Conversion Land Acquisition (08-1-950)

The appropriations in this section are subject to the following conditions and limitations: The appropriations are provided solely for acquisition of working forest lands at risk of conversion to nonforest uses. The legislature finds that the chronic loss of working forest lands threatens the long-term prospects of the timber products industry, which in turn threatens the long-term economic return for the beneficiaries of state trust lands. Acquisition of these conversion lands is intended to help stabilize the primary source of revenue to trust land beneficiaries. The department shall submit a report to the appropriate committees of the legislature by October 1, 2008, indicating the lands purchased under this section, showing the locations, acres, purchase price, and within that purchase price, the value of the property attributed to the future value of timber harvests given an expected rate of return for timber lands, and the value of the property attributed to future development of the property. It is the intention of the legislature to lease the development rights of these conversion lands and retain them as long-term working forest lands under the sustainable harvest

plan. Working forest lands acquired under this section shall be managed at a level equal to or greater than seventy-five percent of the expected harvest under the sustainable harvest plan. The appropriation provided in this section shall lapse unless chapter . . . Preventive Facility Maintenance and Building System Repairs (08-1-150)

The appropriation in this section is subject to the following conditions and limitations:

(1) Pursuant to definitions and provisions in section 925, chapter 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to maintain facilities housing educational and general programs and to maintain its major building systems and campus infrastructure. Building maintenance, mechanical adjustments, repairs, and minor works for the facility or its major building systems and campus infrastructure must extend the remaining useful life of the facility or keep it safe and functioning normally.

(2) With this appropriation, the intent is to improve the average condition of state facilities as compared to the baseline conditions documented in report 03-1 of the joint legislative audit and review committee. Preventive facility maintenance project funds must be allocated at the state board's discretion to achieve the performance goal stated in this subsection (2), with particular attention given to buildings currently rated in superior to adequate condition so as to maximize useful life given both the passage of time and intensity with which the space is used.

(3) Section 6003 of this act does not apply to this appropriation.

(4) There is no intent to reappropriate amounts not expended by June 30, 2009.

Higher Education Cost Escalation (08-2-850)

The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for the state board for community and technical colleges to establish a process for allocating funds to projects that have experienced unanticipated cost escalation for projects bid during the 2007-2009 biennium. Not more than \$750,000 shall be made available to any single project and amounts provided for this purpose must be matched equally from nonstate resources. The board shall manage the distribution of funds to ensure that the requesting college has managed its project within the current appropriation through preparation of bid documents and that the scope of the project is no greater than was originally specified in the design. The board will report to the office of financial management and the appropriate fiscal committees of the legislature on the use of these funds.

EIGHTY-THIRD DAY, MARCH 31, 2007

2007 REGULAR SESSION

**PART 6  
MISCELLANEOUS AND SUPPLEMENTAL  
PROVISIONS**

**NEW SECTION. Sec. 6001.** (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management. The office of financial management shall notify the house of representatives capital budget committee and the senate ways and means committee of allotment releases based on review by the office of financial management. No expenditure may be incurred or obligation entered into for appropriations in this act until the office of financial management has given final approval to the allotment of the funds to be expended or encumbered. For allotments under this act, the allotment process includes, in addition to the statement of proposed expenditures for the current biennium, a category or categories for any reserve amounts and amounts expected to be expended in future biennia. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110. Contracts shall not be executed that call for expenditures in excess of the approved allotment, and the total amount shown in such contracts for the cost of future work that has not been appropriated shall not exceed the amount identified for such work in the level of funding approved by the office of financial management at the completion of predesign.

(2) The legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

**NEW SECTION. Sec. 6002.** To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

**NEW SECTION. Sec. 6003.** (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions. No expenditure may be incurred or obligation entered into for minor works appropriations until the office of financial management has approved the allotment of the funds to be expended.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if

combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

**NEW SECTION. Sec. 6004.** (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) Transfers of funds to an agency's infrastructure savings appropriation are subject to review and approval by the office of financial management. Expenditures from an infrastructure savings appropriation are limited to projects that have a primary purpose to correct infrastructure deficiencies or conditions that: (a) Adversely affect the ability to utilize the infrastructure for its current programmatic use; (b) reduce the life expectancy of the infrastructure; or (c) increase the operating costs of the infrastructure for its current programmatic use. Eligible infrastructure projects may include structures and surface improvements, site amenities, utility systems outside building footprints and natural environmental changes or requirements as part of an environmental regulation, a declaration of emergency

EIGHTY-THIRD DAY, MARCH 31, 2007

for an infrastructure issue in conformance with RCW 43.88.250, or infrastructure planning as part of a facility master plan.

(5) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

**NEW SECTION. Sec. 6005.** (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of appropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

**NEW SECTION. Sec. 6006.** The legislature finds that the state's public four-year institutions and the higher education coordinating board have made substantial progress in developing a process to create a single prioritized list of capital project requests as required under RCW 28B.76.220. The legislature also recognizes that continuing work by the institutions and the board is needed to refine the methodology for determining the ranking of project requests, and that this work will benefit from additional legislative guidance. Therefore, the higher education coordinating board and the public four-year institutions, in developing and submitting the single prioritized project list of capital project requests under RCW 28B.76.220, shall use the following guidelines:

(1) Representatives of the board shall participate in the process of scoring projects using the criteria in the board's biennial budget guidelines. Representatives of the board shall also review the preliminary project list to verify the scoring and ranking of projects. As required under RCW 28B.76.210, institutions must submit the preliminary project list to the board by August 1st of each even-numbered year to enable this review. Any disagreements over project scorings or rankings shall be resolved as provided under RCW 28B.76.220(4).

(2) The higher education coordinating board's biennial budget guidelines and the prioritization process shall place greater emphasis on:

(a) Early critical review of project proposals at the predesign phase, rather than deferring critical review and prioritization to the design or construction phases of a project; and

(b) The capital budget bow wave for a six-year period, beginning with the 2009-2011 biennium through the 2013-2015 biennium.

(3) When projects are aggregated into single line-item requests, each project must meet the definition of minor works according to section 6003(2)(a) of this act. All major projects must be listed and ranked as individual line-item requests.

(4) The scoring and ranking of projects shall not be based on assigning an equal number of overall points to each public four-year institution, but shall reflect an assignment of points to

2007 REGULAR SESSION

individual projects based on the priorities and criteria in this section and in the board's biennial budget guidelines.

(5) Projects shall not be ranked on the basis of a project funding source.

(6) In consultation with the appropriate fiscal and policy committees of the legislature, the board shall identify statewide priorities for higher education capital investments and incorporate those priorities into its biennial budget guidelines. The statewide priorities shall address the need for higher education capital projects to:

(a) Implement a specific legislatively authorized program or planning priority;

(b) Reduce the backlog of deferred building or system preservation, renewal, or replacement;

(c) Provide additional capacity or adaptation of space for high demand instructional or research programs;

(d) Provide additional instructional program capacity for under-served geographic regions or populations; and

(e) Reflect institutional planning priorities and areas of emphasis.

(7) The higher education coordinating board's biennial budget guidelines shall include a quantitative method for scoring projects on the identified priorities. The quantitative method shall include use of the facility condition index developed by the joint legislative audit and review committee for assessing building or system condition, and use of the board's space utilization and allocation standards for assessing the need for additional capacity.

(8) The council of presidents, in consultation with the board, shall report by September 1, 2007, to the appropriate legislative fiscal committees on the use of a proportionality factor in the scoring and ranking of projects. The report shall include:

(a) A definition of proportionality as it has been used in the scoring and ranking of projects for funding in the 2007-2009 biennium and may be used for subsequent biennia;

(b) A method for measuring proportionality in a valid and consistent manner; and

(c) An explanation of how proportionality relates to the statewide priorities established in subsection (6) of this section, including an assessment of the extent to which it promotes the achievement of these statewide priorities.

**NEW SECTION. Sec. 6007.** The Washington state auditor shall perform an audit of the Seattle public library and the secretary of state with regard to expenditures related to the facility located at 2021 9th Avenue, Seattle, Washington that houses the Washington talking book and braille library and city of Seattle functions. The audit shall be completed and results available to the legislature by September 1, 2007.

**NEW SECTION. Sec. 6008.** Eastern Washington University is authorized to sell its Spokane center. Proceeds from the sale must be deposited into the higher education construction account. Proceeds may be used to acquire or design a facility on or adjacent to the Riverpoint higher education campus for the university's Spokane-based program offerings. Eastern Washington University must report to the office of financial management and the appropriate fiscal committees of the legislature upon the sale of the center and with regard to expenditure of the proceeds.

**NEW SECTION. Sec. 6009.** The office of financial management, in consultation with the department of general administration, shall identify capital projects that may benefit from an energy analysis to determine whether there are alternate, more economical, and energy efficient means of completing the work. The office of financial management shall hold appropriations in allotment reserve on the following types of capital projects until this analysis can be completed: Heating, ventilation, and air conditioning modifications, chiller plants, steam plants, boilers, chilled water or steam lines, building control systems, lighting improvements, or other major energy using systems that may warrant additional analysis. Agencies receiving appropriations for such projects are encouraged to

EIGHTY-THIRD DAY, MARCH 31, 2007

utilize energy performance contracts or alternative financing for equipment in lieu of state appropriated funds. The office of financial management may transfer funds remaining in allotment reserve to infrastructure savings projects within the agency that has realized savings from energy efficiency alternatives.

**NEW SECTION. Sec. 6010.** The effective use of state-supported space in higher education is an important factor in assessing both effective management and priorities for capital funding. It is also recognized that the facilities of the state vary significantly among the community colleges, the comprehensive regional universities, and the research universities. It is further recognized that the existing higher education coordinating board space study does a good job of highlighting the use of a portion of the space for a specific chosen set of uses.

In order for the legislature to have a better awareness of all uses of all state-supported space, the council of presidents shall prepare an assessment of facilities use that covers the full scope of uses for all types of state-funded spaces. This assessment should start with the higher education coordinating board report and build upon this to include additional uses, space types, and methodologies, including methodologies and practices used by other higher education institutions.

To the extent possible, it would be helpful for this assessment to use the same definitions of space types and uses. Based upon the differences in mission and function, the assessment may be divided to look at the comprehensive regional universities along with The Evergreen State College in one group and the research universities as a second group.

The council of presidents shall coordinate this effort with the office of financial management, staff from the appropriate fiscal and higher education committees of the legislature, and the higher education coordinating board. The assessment shall be completed and delivered to the legislature by January 1, 2008.

**NEW SECTION. Sec. 6011.** State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

**NEW SECTION. Sec. 6012.** Due to the intended replacement of the building adjoining Capital Way and 11th avenue, the department of general administration shall not charge the facility depreciation component of lease charges for nonprofit tenants in that facility during the 2007-2009 biennium.

**NEW SECTION. Sec. 6013.** Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

**NEW SECTION. Sec. 6014. ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL CONTRACTS.** The following agencies may enter into financial contracts, paid from any funds of an agency, appropriated or nonappropriated, for the purposes indicated and in not more than the principal amounts indicated, plus financing expenses and required reserves pursuant to chapter 39.94 RCW. When securing properties under this section, agencies shall use the most economical financial contract option available, including long-term leases, lease-purchase agreements, lease-development with option to purchase agreements or financial contracts using certificates of participation. Expenditures made by an agency for one of the indicated purposes before the issue date of the authorized financial contract and any certificates of participation therein are intended to be reimbursed from proceeds of the financial contract and any certificates of participation therein to the extent provided in the agency's financing plan approved by the state finance committee.

State agencies may enter into agreements with the department of general administration and the state treasurer's office to develop requests to the legislature for acquisition of properties and facilities through financial contracts. The agreements may include charges for services rendered.

2007 REGULAR SESSION

A purchase agreement shall include the following requirements: (a) Upon completion of the purchase of the property, the buyer shall put \$5,750,000 of the purchase price in an interest-bearing escrow account that shall be released to the seller after the seller has raised sixty-five percent of the funds required to develop a museum within the city of Seattle and has executed a development agreement with the city of Seattle; and (b) in the event that the conditions of (a) of this subsection are not met by June 30, 2013, the entire amount in the escrow account shall be transferred to the state general fund and shall represent a recovery of the state's contribution towards the development of the museum. state-owned property called "the Wheeler block" in Olympia. The office buildings shall be constructed and financed so that agencies occupancy costs will not exceed comparable private market rental rates. The comparable general office space rate shall be calculated based on recent Thurston county leases of new space of at least 100,000 rentable square feet adjusted for known escalation clauses, expected inflation, and differences in the level of service provided by the comparable leases as determined by the department of general administration. In addition to the department of information services, state agency tenants shall include the state patrol and other state agencies specified in LEAP capital document No. 2007-xx. The office of financial management shall certify to the state treasurer: (a) The project description and dollar amount; and (b) that all requirements of this subsection (10) have been met. Should the department choose to use a financing contract that does not provide for the issuance of certificates of participation, the financing contract shall be subject to approval by the state finance committee as required by RCW 39.94.010. In approving a financing contract not providing for the use of certificates of participation, the state finance committee should be reasonably certain that the contract is excluded from the computation of indebtedness, particularly that the contract is not backed by the full faith and credit of the state, and the legislature is expressly not obligated to appropriate funds to make payments. For purposes of this section, "financing contract" includes but is not limited to a certificate of participation and tax exempt financing similar to that authorized in RCW 47.79.140.

(9) Office of the secretary of state: Enter into a financing contract for up to \$112,942,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to construct the heritage center. The heritage center is one part of a combined facility of the heritage center and executive office building, authorized in subsection (10) of this section. The authorization for financing under this subsection (9) shall lapse unless chapter ... ([House] [Senate] Bill No. ... (Z-0290/07, providing funding for the heritage building project)), Laws of 2007 is enacted by June 30, 2007.

(10) Department of general administration: Enter into a financing contract for up to \$75,863,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to construct the executive office building. The executive office building is one part of a combined facility of the executive office building and the heritage center authorized in subsection (9) of this section. The authorization for financing under this subsection (10) shall lapse unless chapter ... ([House] [Senate] Bill No. ... (Z-0290/07, providing funding for the heritage building project)), Laws of 2007 is enacted by June 30, 2007.

**NEW SECTION. Sec. 6015. FOR THE ARTS COMMISSION--ART WORK ALLOWANCE POOLING.** (1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the superintendent of public instruction and representatives of school district boards.

(2) One-half of one percent of moneys appropriated in this act for original construction or any major renovation or remodel work exceeding two hundred thousand dollars by colleges or universities is provided solely for the purposes of RCW 28B.10.027. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the board of regents or trustees.

(3) One-half of one percent of moneys appropriated in this act for original construction of any public building by a state agency as defined in RCW 43.17.020 is provided solely for the purposes of RCW 43.17.200. The Washington state arts commission may combine the proceeds from individual projects

2007 REGULAR SESSION

in order to fund larger works of art or mobile art displays in consultation with the state agency.

(4) At least eighty-five percent of the moneys spent by the Washington state arts commission during the 2007-2009 biennium for the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely for direct acquisition of works of art. The commission may use up to \$100,000 of this amount to conserve or maintain existing pieces in the state art collection pursuant to chapter 36, Laws of 2005.

**NEW SECTION. Sec. 6016.** The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2009-2011 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

**NEW SECTION. Sec. 6017.** (1) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. (1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall transfer an amount from the state general fund to the emergency reserve fund. The amount transferred shall equal the amount by which total state revenue for the general fund and related funds exceeds the state expenditure limit, multiplied by the percentage that general fund expenditures are of total expenditures from the general fund and related funds. Transfers shall be made at the end of each fiscal quarter based on projections of state revenues, expenditures, and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by

the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. When per-student state funding for the maintenance and operation of K-12 education meets a level of no less than ninety percent of the national average of total funding from all sources per student as determined by the most recent published data from the national center for education statistics of the United States department of education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) The appropriation is provided solely for low-interest loans to political subdivisions for renewable energy projects including the development of biofuel oilseed crushers, supporting infrastructure, and facilities. The political subdivision may negotiate an appropriate agreement with the bioenergy industry for the use of the oilseed crushers, supporting infrastructure, and facilities.

(b) For purposes of this section, political subdivision means any port district, county, city, town, special purpose district, and any other municipal corporations or quasi-municipal corporations in the state.

(2) The appropriation is provided solely for the following list of projects:

Project	Recommendation
Spokane Conservation district	<del>(\$2,000,000)</del> <u>\$1,779,000</u>
Port of Warden	\$2,500,000
Odessa public development authority	<del>(\$2,500,000)</del> <u>\$3,500,000</u>

(3) All agreements negotiated between the political subdivision and the bioenergy industry for use of the oilseed crushers, supporting infrastructure, or facilities funded in this section must provide for at least a fifty percent match by the industry partner. The industry match may include, but is not limited to, investments in rail, buildings, refining capacity, or seed stock.

(4) All other project funds must be disbursed prior to energy freedom loans, except where required on a matching basis by other federal or state programs.

(5) The department shall disburse loans to the political subdivision on a reimbursement basis only.

(6) The department may defer loan repayment for up to twenty-four months or until the projects start to receive revenue from operations, whichever is sooner.

(7) Upon written notice to the political subdivision, the department may suspend or cancel its loans if any of the following occur:

(a) The political subdivision fails to make satisfactory and reasonable progress to complete the project, or the department concludes the political subdivision will be unable to complete the project or any portion of it; or

(b) The political subdivision or bioenergy industry partners have made misrepresentations in any information furnished to the department or the legislature in connection with the project.

(8) In the event that any portion of the loan has been paid to the political subdivision under this section at the time of breach, or failure of the political subdivision to satisfactorily perform, the department may require that the full amount of the loan, or a portion thereof, be repaid within a period specified by the department.

(9) Future loan repayments shall be deposited into the energy freedom account created in section 6, chapter . . . (Engrossed Third Substitute House Bill No. 2939), Laws of 2006.

(10) It is the intent of the legislature to provide loans for the development of a Washington state biodiesel industry based on Washington grown oilseed. The legislature is aware that in the development of this industry, the start-up process may necessitate the use of other oilseeds until Washington state growers plant sufficient crops to support this industry. The legislature also understands the realities of weather and market conditions in this process. The conversion to maximum Washington grown oilseed must be accomplished as quickly as possible. The political subdivision shall: (a) Develop a plan for outreach to local growers and an estimate of when maximum Washington state oilseed-based production will be reached; (b) develop a goal for the political subdivision to return a portion of the biofuel to local oilseed producers; and (c) report this information to the department of agriculture by December 1, 2006. The department shall report on the implementation of this section by January 1, 2007, to the appropriate committees of the legislature.

(11) If chapter . . . (House Bill No. 1303/Senate Bill No. 5586 (cleaner energy)), Laws of 2007 is enacted, then the amounts in this section are appropriated to the department of community, trade, and economic development.

## SECOND READING

ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1461, by House Committee on Appropriations (originally sponsored by Representatives Morrell, Miloscia, O'Brien, Ericks, Hunt, Sells, Green, Flannigan, Williams, Kenney, Appleton, Ormsby, Quall, Haigh, Hasegawa and Lantz)

Addressing manufactured/mobile home community registrations and dispute resolution.

The measure was read the second time.

## MOTION

Senator Kastama moved that the following committee striking amendment by the Committee on Consumer Protection & Housing be adopted.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that there are factors unique to the relationship between a manufactured/mobile home tenant and a manufactured/mobile home community landlord. Once occupancy has commenced, the difficulty and expense in moving and relocating a manufactured/mobile home can affect the operation of market forces and lead to an inequality of the bargaining position of the parties. Once occupancy has commenced, a tenant may be subject to violations of the manufactured/mobile home landlord-tenant act without an adequate remedy at law. This chapter is created for the purpose of protecting the public, fostering fair and honest competition, and regulating the factors unique to the relationship between the manufactured/mobile home tenant and the manufactured/mobile home community landlord.

(2) The legislature finds that taking legal action against a manufactured/mobile home community landlord for violations of the manufactured/mobile home landlord-tenant act can be a costly and lengthy process, and that many people cannot afford to pursue a court process to vindicate statutory rights. Manufactured/mobile home community landlords will also benefit by having access to a process that resolves disputes quickly and efficiently.

(3)(a) Therefore, it is the intent of the legislature to provide an equitable as well as a less costly and more efficient way for manufactured/mobile home tenants and manufactured/mobile home community landlords to resolve disputes, and to provide a

mechanism for state authorities to quickly locate manufactured/mobile home community landlords.

(b) The legislature intends to authorize the department of licensing to register manufactured/mobile home communities and collect a registration fee.

(c) The legislature intends to authorize the attorney general to:

(i) Produce and distribute educational materials regarding the manufactured/mobile home landlord-tenant act and the manufactured/mobile home dispute resolution program created in section 3 of this act;

(ii) Administer the dispute resolution program by taking complaints, conducting investigations, making determinations, issuing fines and other penalties, and participating in administrative dispute resolutions, when necessary, when there are alleged violations of the manufactured/mobile home landlord-tenant act; and

(iii) Collect and annually report upon data related to disputes and violations, and make recommendations on modifying chapter 59.20 RCW, to the appropriate committees of the legislature.

**NEW SECTION. Sec. 2.** For purposes of this chapter:

(1) "Complainant" means a landlord, community owner, or tenant, who has a complaint alleging a violation of chapter 59.20 RCW;

(2) "Department" means the department of licensing;

(3) "Director" means the director of licensing;

(4) "Landlord" or "community owner" means the owner of a mobile home park or a manufactured housing community and includes the agents of a landlord;

(5) "Manufactured home" means a single-family dwelling built according to the United States department of housing and urban development manufactured home construction and safety standards act, which is a national preemptive building code. A manufactured home also: (a) Includes plumbing, heating, air conditioning, and electrical systems; (b) is built on a permanent chassis; and (c) can be transported in one or more sections with each section at least eight feet wide and forty feet long when transported, or when installed on the site is three hundred twenty square feet or greater;

(6) "Mobile home" means a factory-built dwelling built prior to June 15, 1976, to standards other than the United States department of housing and urban development code, and acceptable under applicable state codes in effect at the time of construction or introduction of the home into the state. Mobile homes have not been built since the introduction of the United States department of housing and urban development manufactured home construction and safety act;

(7) "Manufactured/mobile home" means either a manufactured home or a mobile home;

(8) "Manufactured/mobile home lot" means a portion of a manufactured/mobile home community designated as the location of one mobile home, manufactured home, or park model and its accessory buildings, and intended for the exclusive use as a primary residence by the occupants of that mobile home, manufactured home, or park model;

(9) "Mobile home park," "manufactured housing community," or "manufactured/mobile home community" means any real property that is rented or held out for rent to others for the placement of two or more mobile homes, manufactured homes, park models, or recreational vehicles for the primary purpose of production of income, except where the real property is rented or held out for rent for seasonal recreational purposes only and is not used for year-round occupancy;

(10) "Owner" means one or more persons, jointly or severally, in whom is vested:

(a) All or part of the legal title to the real property; or

(b) All or part of the beneficial ownership, and a right to present use and enjoyment of the real property;

EIGHTY-THIRD DAY, MARCH 31, 2007

(11) "Park model" means a recreational vehicle intended for permanent or semi-permanent installation and is used as a permanent residence;

(12) "Recreational vehicle" means a travel trailer, motor home, truck camper, or camping trailer that is primarily used as a permanent residence located in a mobile home park or manufactured housing community;

(14) "Tenant" means any person, except a transient as defined in RCW 59.20.030, who rents a mobile home lot.

**NEW SECTION. Sec. 3.** (1) The attorney general shall administer a manufactured/mobile home dispute resolution program.

(2) The purpose of the manufactured/mobile home dispute resolution program is to provide manufactured/mobile home community landlords and tenants with a cost-effective and time-efficient process to resolve disputes regarding alleged violations of the manufactured/mobile home landlord-tenant act.

(3) The attorney general under the manufactured/mobile home dispute resolution program shall:

(a) Produce educational materials regarding chapter 59.20 RCW and the manufactured/mobile home dispute resolution program, including a notice in a format that a landlord can reasonably post in a manufactured/mobile home community that summarizes tenant rights and responsibilities, includes information on how to file a complaint with the attorney general, and includes a toll-free telephone number and web site address that landlords and tenants can use to seek additional information and communicate complaints;

(b) Distribute the educational materials described in (a) of this subsection to all known landlords and information alerting landlords that:

(i) All landlords must post the notice provided by the attorney general that summarizes tenant rights and responsibilities and includes information on how to file complaints, in a clearly visible location in all common areas of manufactured/mobile home communities, including in each clubhouse;

(ii) The attorney general may visually confirm that the notice is appropriately posted; and

(iii) The attorney general may issue a fine or other penalty if the attorney general discovers that the landlord has not appropriately posted the notice or that the landlord has not maintained the posted notice so that it is clearly visible to tenants;

(c) Distribute the educational materials described in (a) of this subsection to any complainants and respondents, as requested;

(d) Perform dispute resolution activities, including investigations, negotiations, determinations of violations, and imposition of fines or other penalties as described in section 4 of this act;

(i) The number of complaints received;

(ii) The nature and extent of the complaints received;

(iii) The violation of law complained of; and

(iv) The manufactured/mobile home dispute resolution program outcomes for each complaint;

(f) Provide an annual report to the appropriate committees of the legislature on the data collected under this section, including program performance measures and recommendations regarding how the manufactured/mobile home dispute resolution program may be improved, by December 31st, beginning in 2007.

(4) The manufactured/mobile home dispute resolution program, including all of the duties of the attorney general under

2007 REGULAR SESSION

the program as described in this section, shall be funded by the collection of fines, other penalties, and fees deposited into the manufactured/mobile home dispute resolution program account created in section 8 of this act, and all other sources directed to the manufactured/mobile home dispute resolution program.

**NEW SECTION. Sec. 4.** (1) An aggrieved party has the right to file a complaint with the attorney general alleging a violation of chapter 59.20 RCW.

(2) Upon receiving a complaint under this act, the attorney general must:

(a) Inform the complainant of any notification requirements under RCW 59.20.080 for tenant violations or RCW 59.20.200 for landlord violations and encourage the complainant to appropriately notify the respondent of the complaint; and

(b) If a statutory time period is applicable, inform the complainant of the time frame that the respondent has to remedy the complaint under RCW 59.20.080 for tenant violations or RCW 59.20.200 for landlord violations.

(3) After receiving a complaint under this act, the attorney general shall initiate the manufactured/mobile home dispute resolution program by investigating the alleged violations at its discretion and, if appropriate, facilitating negotiations between the complainant and the respondent.

(4)(a) Complainants and respondents shall cooperate with the attorney general in the course of an investigation by (i) responding to subpoenas issued by the attorney general, which may consist of providing access to papers or other documents, and (ii) providing access to the manufactured/mobile home facilities relevant to the investigation. Complainants and respondents must respond to attorney general subpoenas within thirty days.

(b) Failure to cooperate with the attorney general in the course of an investigation is a violation of this chapter.

(5) If after an investigation the attorney general determines that an agreement cannot be negotiated between the parties, the attorney general shall make a written determination on whether a violation of chapter 59.20 RCW has occurred.

(a) If the attorney general finds by a written determination that a violation of chapter 59.20 RCW has occurred, the attorney general shall deliver a written notice of violation to the respondent who committed the violation by certified mail. The notice of violation must specify the violation, the corrective action required, the time within which the corrective action must be taken, the penalties including fines, other penalties, and actions that will result if corrective action is not taken within the specified time period, and the process for contesting the determination, fines, penalties, and other actions included in the notice of violation through an administrative hearing. The attorney general must deliver to the complainant a copy of the notice of violation by certified mail.

(b) If the attorney general finds by a written determination that a violation of chapter 59.20 RCW has not occurred, the attorney general shall deliver a written notice of nonviolation to both the complainant and the respondent by certified mail. The notice of nonviolation must include the process for contesting the determination included in the notice of nonviolation through an administrative hearing.

(6) Corrective action must take place within fifteen business days of the respondent's receipt of a notice of violation, except as required otherwise by the attorney general, unless the respondent has submitted a timely request for an administrative hearing to contest the notice of violation as required under subsection (8) of this section. If a respondent, which includes either a landlord or a tenant, fails to take corrective action within the required time period and the attorney general has not received a timely request for an administrative hearing, the attorney general may impose a fine, up to a maximum of two hundred fifty dollars per violation per day, for each day that a violation remains uncorrected. The attorney general must consider the severity and duration of the violation and the

EIGHTY-THIRD DAY, MARCH 31, 2007

violation's impact on other community residents when determining the appropriate amount of a fine or the appropriate penalty to impose on a respondent. If the respondent shows upon timely application to the attorney general that a good faith effort to comply with the corrective action requirements of the notice of violation has been made and that the corrective action has not been completed because of mitigating factors beyond the respondent's control, the attorney general may delay the imposition of a fine or penalty.

(7) The attorney general may issue an order requiring the respondent, or its assignee or agent, to cease and desist from an unlawful practice and take affirmative actions that in the judgment of the attorney general will carry out the purposes of this chapter. The affirmative actions may include, but are not limited to, the following:

(a) Refunds of rent increases, improper fees, charges, and assessments collected in violation of this chapter;

(b) Filing and utilization of documents that correct a statutory or rule violation; and

(c) Reasonable action necessary to correct a statutory or rule violation.

(8) A complainant or respondent may request an administrative hearing before an administrative law judge under chapter 34.05 RCW to contest:

(a) A notice of violation issued under subsection (5)(a) of this section or a notice of nonviolation issued under subsection (5)(b) of this section;

(b) A fine or other penalty imposed under subsection (6) of this section; or

(c) An order to cease and desist or an order to take affirmative actions under subsection (7) of this section.

The complainant or respondent must request an administrative hearing within fifteen business days of receipt of a notice of violation, notice of nonviolation, fine, other penalty, order, or action. If an administrative hearing is not requested within this time period, the notice of violation, notice of nonviolation, fine, other penalty, order, or action constitutes a final order of the attorney general and is not subject to review by any court or agency.

(9) If an administrative hearing is initiated, the respondent and complainant shall each bear the cost of his or her own legal expenses.

(10) The administrative law judge appointed under chapter 34.12 RCW shall:

(a) Hear and receive pertinent evidence and testimony;

(b) Decide whether the evidence supports the attorney general finding by a preponderance of the evidence; and

(c) Enter an appropriate order within thirty days after the close of the hearing and immediately mail copies of the order to the affected parties.

The order of the administrative law judge constitutes the final agency order of the attorney general and may be appealed to the superior court under chapter 34.05 RCW.

(11) When the attorney general imposes a fine, refund, or other penalty against a respondent, the respondent may not seek any recovery or reimbursement of the fine, refund, or other penalty from a complainant or from other manufactured/mobile home tenants.

(12) All receipts from the imposition of fines or other penalties collected under this section other than those due to a complainant must be deposited into the manufactured/mobile home dispute resolution program account created in section 8 of this act.

(13) This section is not exclusive and does not limit the right of landlords or tenants to take legal action against another party as provided in chapter 59.20 RCW or otherwise. Exhaustion of the administrative remedy provided in this chapter is not required before a landlord or tenants may bring a legal action. This section does not apply to unlawful detainer actions initiated under RCW 59.20.080 prior to the filing and service of an unlawful detainer court action; however, a tenant is not

2007 REGULAR SESSION

precluded from seeking relief under this chapter if the complaint claims the notice of termination violates RCW 59.20.080 prior to the filing and service of an unlawful detainer action.

**NEW SECTION. Sec. 5.** The attorney general, director, or individuals acting on behalf of the attorney general or director are immune from suit in any action, civil or criminal, based upon any disciplinary actions or other official acts performed in the course of their duties under this chapter, except their intentional or willful misconduct.

**NEW SECTION. Sec. 6.** (1) The department shall annually register all manufactured/mobile home communities. Each community must be registered separately. The department must deliver by certified mail registration notifications to all known manufactured/mobile home community landlords. Registration information packets must include:

(a) Registration forms; and

(b) Registration assessment information, including registration due dates and late fees, and the collections procedures, liens, and charging costs to tenants.

(2) To apply for registration, the landlord of a manufactured/mobile home community must file with the department an application for registration on a form provided by the department and must pay a registration fee as described in subsection (3) of this section. The department may require the submission of information necessary to assist in identifying and locating a manufactured/mobile home community and other information that may be useful to the state, which must include, at a minimum:

(a) The names and addresses of the owners of the manufactured/mobile home community;

(b) The name and address of the manufactured/mobile home community;

(c) The name and address of the landlord and manager of the manufactured/mobile home community;

(d) The number of lots within the manufactured/mobile home community that are subject to chapter 59.20 RCW; and

(e) The addresses of each manufactured/mobile home lot within the manufactured/mobile home community that is subject to chapter 59.20 RCW.

(3) Each manufactured/mobile home community landlord shall pay to the department:

(a) A one-time master application fee for the first year of registration and, in subsequent years, an annual master renewal application fee, as provided in RCW 19.02.075; and

(b) An annual registration assessment of ten dollars for each manufactured/mobile home that is subject to chapter 59.20 RCW within a manufactured/mobile home community. Manufactured/mobile home community landlords may charge a maximum of five dollars of this assessment to tenants. Nine dollars of the registration assessment for each manufactured/mobile home shall be deposited into the manufactured/mobile home dispute resolution program account created in section 8 of this act to fund the costs associated with the manufactured/mobile home dispute resolution program. The remaining one dollar shall be deposited into the master license fund created in RCW 19.02.210. The annual registration assessment must be reviewed once each biennium by the department and the attorney general and may be adjusted to reasonably relate to the cost of administering this chapter. The registration assessment may not exceed ten dollars, but if the assessment is reduced, the portion allocated to the manufactured/mobile home dispute resolution program account and the master license fund shall be adjusted proportionately.

(4) Initial registrations of mobile/manufactured housing communities must be filed with the department before November 1, 2007, or within three months of the availability of mobile home lots for rent within the community. The manufactured/mobile home community is subject to a delinquency fee of two hundred fifty dollars for late initial registrations. The delinquency fee shall be deposited in the master license fund. Renewal registrations that are not renewed

EIGHTY-THIRD DAY, MARCH 31, 2007

by the expiration date as assigned by the department are subject to delinquency fees under RCW 19.02.085.

(5) Thirty days after sending late fee notices to a noncomplying landlord, the department may refer the past due account to a collection agency. If there is no response from a noncomplying landlord after sixty days in collections, the department may file an action to enforce payment of unpaid registration assessments and late fees in the superior court for Thurston county or in the county in which the manufactured/mobile home community is located. If the department prevails, the manufactured/mobile home community landlord shall pay the department's costs, including reasonable attorneys' fees, for the enforcement proceedings.

(6) Registration is effective on the date determined by the department, and the department shall issue a registration number to each registered manufactured/mobile home community. The department must provide an expiration date, assigned by the department, to each manufactured/mobile home community who registers.

**NEW SECTION. Sec. 7.** The department must have the capability to compile, update, and maintain the most accurate database possible of all the manufactured/mobile home communities in the state, which must include all of the information collected under section 6 of this act, except for the addresses of each manufactured/mobile home lot within the manufactured/mobile home community that is subject to chapter 59.20 RCW, which must be made available to the attorney general and the department of community, trade, and economic development in a format to be determined by a collaborative agreement between the department of licensing and the attorney general.

**NEW SECTION. Sec. 8.** The manufactured/mobile home dispute resolution program account is created in the custody of the state treasurer. All receipts from sources directed to the manufactured/mobile home dispute resolution program must be deposited in the account. Expenditures from the account may be used only for the costs associated with administering the manufactured/mobile home dispute resolution program. Only the attorney general or the attorney general's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

**NEW SECTION. Sec. 9.** A new section is added to chapter 34.12 RCW to read as follows:

When requested by the attorney general, the chief administrative law judge shall assign an administrative law judge to conduct proceedings under Title 59 RCW.

**NEW SECTION. Sec. 10.** Sections 1 through 8 of this act constitute a new chapter in Title 59 RCW.

**NEW SECTION. Sec. 11.** The attorney general may take the necessary steps to ensure that this act is implemented on its effective date."

#### POINT OF INQUIRY

Senator Clements: "Would Senator Kohl-Welles yield to a question? It's my understanding that this bill applies only to cranes used in construction and that activities involving routine maintenance are exempt from this bill. So, for example, a private railroad performing routine maintenance on its rail lines would be exempt. Is that correct?"

Senator Kohl-Welles: "Yes, thank you Senator for that question. That is correct, the bill establishes certification requirements for construction cranes and qualifications for construction crane operators only. We've had staff attorneys look into this at length and routine maintenance does not constitute construction and your example, a private railroad that uses a crane to replace ties or rails in order to maintain and establish track is not subject to regulation under this bill because that activity is considered maintenance. However, if the private railroad were to use a crane to replace structural members on a railroad bridge for example to build a new spur or railway or to build a structure, it would be subject to regulation under the bill

because those activities would be considered construction activities."

Senator Clements and Franklin spoke in favor of passage of the bill.

The President declared the question before the Senate to be the final passage of Engrossed Substitute House Bill No. 2171.

(1) The entire transportation 2003 account (nickel account) appropriation and the entire transportation partnership account appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document 2007-1, Highway Improvement Program (I) as developed March 27, 2007. However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 603 of this act.

(2) The motor vehicle account--state appropriation includes up to \$11,000,000 in proceeds from the sale of bonds authorized by RCW 47.10.843.

(3) The department shall not commence construction on any part of the state route number 520 bridge replacement and HOV project until a record of decision has been reached providing reasonable assurance that project impacts will be avoided, minimized, or mitigated as much as practicable to protect against further adverse impacts on neighborhood environmental quality as a result of repairs and improvements made to the state route 520 bridge and its connecting roadways, and that any such impacts will be addressed through engineering design choices, mitigation measures, or a combination of both. The requirements of this section shall not apply to off-site pontoon construction supporting the state route number 520 bridge replacement and HOV project.

(4) The Tacoma Narrows toll bridge account--state appropriation includes up to \$131,016,000 in proceeds from the sale of bonds authorized by RCW 47.10.843.

(5) The department should consider using mitigation banking on appropriate projects whenever possible, without increasing the cost to projects. The department should consider using the advanced environmental mitigation revolving account (AEMRA) for corridor and watershed based mitigation opportunities, in addition to project specific mitigation. However, the department shall not use agricultural lands of long-term commercial significance, as that term is used under chapter 36.70A RCW, for mitigation banking.

(6) The department shall apply for surface transportation program (STP) enhancement funds to be expended in lieu of or

2007 REGULAR SESSION

in addition to state funds for eligible costs of projects in Programs I and P, including, but not limited to, the SR 518, SR 519, SR 520, and Alaskan Way Viaduct projects.

(7) \$250,000 of the motor vehicle account--state appropriation is provided solely for an inland pacific hub study to develop an inland corridor for the movement of freight and goods to and through eastern Washington; and \$500,000 of the motor vehicle account--state appropriation is provided solely for the SR3/SR16 corridor study to plan and prioritize state and local improvements needed over the next 10-20 years to support safety, capacity development, and economic development within the corridor.

(8) The department shall, on a quarterly basis beginning July 1, 2007, provide to the office of financial management and the legislature reports providing the status on each project funded in part or whole by the transportation 2003 account (nickel account) or the transportation partnership account. Funding provided at a programmatic level for transportation partnership account and transportation 2003 account (nickel account) projects relating to bridge rail, guard rail, fish passage barrier removal, and roadside safety projects should be reported on a programmatic basis. Projects within this programmatic level funding should be completed on a priority basis and scoped to be completed within the current programmatic budget. Other projects may be reported on a programmatic basis. The department shall work with the office of financial management and the transportation committees of the legislature to agree on report formatting and elements. Elements shall include, but not be limited to, project scope, schedule, and costs. The department shall also provide the information required under this subsection on a quarterly basis via the transportation executive information systems (TEIS).

(9) The SR 519/I-90 to SR 99 intermodal access project is anticipated to cost not more than \$74,000,000, with \$19,433,000 from the freight congestion relief account and remaining amounts funded from other state, federal, and local sources.

(10) The department shall apply for the competitive portion of federal transit administration funds for eligible transit-related costs of the SR 520 bridge replacement and HOV project. The federal funds described in this subsection shall not include those federal transit administration funds distributed by formula.

(11) Funding provided by this act for the Alaskan Way Viaduct project shall not be spent for preliminary engineering, design, right-of-way acquisition, or construction on the project if completion of the project would more likely than not reduce the capacity of the facility. Capacity shall be measured by including the consideration of the efficient movement of people and goods on the facility.

(12) The governor shall convene a collaborative process involving key leaders to determine the final project design for the Alaskan Way Viaduct.

(a) The process shall be guided by the following common principles: Public safety must be maintained; the final project shall meet both capacity and mobility needs; and taxpayer dollars must be spent responsibly.

(b) The state's project expenditures shall not exceed \$2,800,000,000.

(c) A final design decision shall be made by December 31, 2008.

(13) During the 2007-09 biennium, the department shall proceed with a series of projects on the Alaskan Way Viaduct that are common to any design alternative. Those projects include relocation of two electrical transmission lines, Battery Street tunnel upgrades, seismic upgrades from Lenora to the Battery Street tunnel, viaduct removal from Holgate to King Street, and development of transit enhancements and other improvements to mitigate congestion during construction.

(14) \$10,000,000 of motor vehicle account--state appropriation is planned to be expended in the 2011-13 biennium on SR 161/36th to Vicinity 24th St. E. (316118C) to

secure right of way for the project, and the appropriate LEAP Transportation Document 2007-1 lines and totals shall be adjusted accordingly.

(15) The entire freight congestion relief account--state appropriation is contingent upon the enactment during the 2007-2009 fiscal biennium of a bill, resulting from the study established in Substitute Senate Bill No. 5207, that makes available funding to support project expenditures funded from the freight congestion relief account created in Substitute Senate Bill No. 5207. If such a funding bill is not enacted by June 30, 2009, the entire freight congestion relief account--state appropriation shall lapse.

The appropriations in this section are subject to the following conditions and limitations:

(1)(a) The entire appropriations in this section are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document 2007-1, Rail Capital Program (Y) as developed March 27, 2007. However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 603 of this act.

2007 REGULAR SESSION

(b) Within the amounts provided in this section, \$14,500,000 of the transportation infrastructure account--state appropriation is for low-interest loans for rail capital projects through the freight rail investment bank program. However, until June 30, 2009, \$12,000,000 of the amount provided under this subsection (1)(b), which includes proceeds from the sale of ancillary property pursuant to subsection (5) of this section, must be made available as a no interest loan to any public entity seeking to provide operating service on a state-owned rail line where the loan proceeds are used to refurbish the rail line. With respect to the remaining \$2,500,000 of the amount provided under this subsection (1)(b), the department shall issue a call for projects based upon the legislative priorities specified in Engrossed Substitute Senate Bill No. 6120. Application must be received by the department by November 1, 2007. By December 1, 2007, the department shall submit a prioritized list of recommended projects to the office of financial management and the transportation committees of the legislature.

(c) Within the amounts provided in this section, \$3,335,000 of the multimodal transportation account--state appropriation is for statewide - emergent freight rail assistance projects. However, the department shall perform a cost/benefit analysis of the projects according to the legislative priorities regarding public benefits specified in Engrossed Substitute Senate Bill No. 6120, and shall give priority to the following projects: Rail - Tacoma rail yard switching upgrades (\$500,000); Rail - Port of Ephrata spur rehabilitation (\$127,000); Rail - Lewis and Clark rail improvements (\$1,100,000); Rail - Port of Grays Harbor rail access improvements (\$543,000); Rail - Port of Longview rail loop construction (\$291,000); and Rail - Port of Chehalis (\$774,000). If the relative cost of any of the six projects identified in this subsection (1)(c) is not substantially less than the public benefits to be derived from the project, then the department shall not assign the funds to the project, and instead shall use those funds toward those projects identified by the department in the attachments to the "Washington State Department of Transportation FREIGHT RAIL ASSISTANCE FUNDING PROGRAM: 2007-2009 Prioritized Project List and Program Update" dated December 2006 for which the proportion of public benefits to be gained compared to the cost of the project is greatest.

(d) Within the amounts provided in this section, \$9,000,000 of the multimodal transportation account--state appropriation is for the replacement of the rail bridge across the Cedar river.

(e) Within the amounts provided in this section, \$25,000,000 of the freight congestion relief account--state appropriation is for modifications to the Stampede Pass rail tunnel to facilitate the movement of double stacked rail cars.

(f) Within the amounts provided in this section, \$200,000 of the multimodal transportation account--state appropriation is for rescoping the Kelso to Martin's Bluff - 3rd Mainline and Storage Tracks project. The rescoped project may include funds that are committed to the project by local or private funding partners. However, the rescoped project must be capable of being completed with not more than \$49,470,000 in future state funding. Subject to this funding constraint, the rescoped project must maximize capacity improvements along the rail mainline.

(2) The multimodal transportation account--state appropriation includes up to \$137,620,000 in proceeds from the sale of bonds authorized by RCW 47.10.867.

(3) The department is directed to seek the use of unprogrammed federal rail crossing funds to be expended in lieu of or in addition to state funds for eligible costs of projects in Program Y, including, but not limited to the "Tacoma -- bypass of Pt. Defiance" project.

(4) If new federal funding for freight or passenger rail is received, the department shall consult with the transportation committees of the legislature and the office of financial management prior to spending the funds on existing or additional projects.

(5) The Palouse River and Coulee City (PCC) rail line system is made up of the CW, P&L and PV Hooper rail lines. The state has purchased the right-of-ways to the PCC rail line system. Watco will continue to operate the PV Hooper line, as required by contract. The department shall select operator(s) for the CW and P&L rail lines for the 2007 and 2008 harvest seasons through a competitive bid process, unless no bid is submitted in response to the department's request for bids. The operating agreement(s) for the CW and P&L rail lines shall not include provision for a state operating or capital subsidy. If, upon expiration of any of the operating agreements, any intergovernmental entity or local rail district expresses interest in the operating rights to the CW, P&L and PV Hooper rail lines, then the department shall give the intergovernmental entity or local rail district the right of first refusal to the long-term operating rights of the line(s), provided however that the long-term operating rights shall be available without state operating or capital subsidy. If such a funding bill is not enacted by June 30, 2009, the entire freight congestion relief account--state appropriation shall lapse.

Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a

2007 REGULAR SESSION

specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

(8) Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project's quality assurance plan.

**NEW SECTION. Sec. 603. FUND TRANSFERS.**(1) The transportation 2003 projects or improvements and the 2005 transportation partnership projects or improvements are listed in LEAP Transportation Document 2007-1, which consists of a list of specific projects by fund source and amount over a sixteen year period. Current biennium funding for each project is a line item appropriation, while the outer year funding allocations represent a sixteen year balanced plan. Unless otherwise provided in this act, the director of financial management may authorize a transfer of spending allocation within the appropriation provided and between projects funded with transportation 2003 account (nickel account) appropriations, transportation partnership account appropriations, or multimodal transportation account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project, nor shall a transfer be made to support increases in the scope of a project;

(c) Each transfer between projects may only occur if the director of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature;

(d) Transfers to a project may be made without an offsetting project reduction if the office of financial management finds there is sufficient appropriation authority to accommodate the allocation increase;

(e) Transfers of less than \$500,000 may be made by the department without approval from the office of financial management;

(f) Transfers may not occur to projects not identified on the applicable project list; and

(g) Transfers may not be made while the legislature is in session.

(2) At the time the department submits a request to transfer funds under this section a copy of the request shall be submitted to the transportation committees of the legislature. The request must include how the fund transfer requests will be accommodated in a balanced financial plan, consistent with legislative intent. A report of all approved transfers made under this section shall be submitted on October 1st of each fiscal year to the transportation committees of the legislature.

(3) The office of financial management shall work with legislative staff of the house of representatives and senate transportation committees and the legislative evaluation and

accountability program committee to review the requested transfers.

(4) The office of financial management shall document approved transfers and/or schedule changes in the transportation executive information system (TEIS), compare changes to the last legislative session, and transmit revised project lists to chairs of the transportation committees of the legislature on a quarterly basis.

**NEW SECTION. Sec. 604. MEGA-PROJECT REPORTING.** Mega-projects are defined as individual or groups of related projects that cost \$1,000,000,000 or more. These projects include, but are not limited to: Alaskan Way Viaduct, SR 520, SR 167, I-405, North Spokane corridor, I-5 Tacoma HOV, and the Columbia River Crossing. The office of financial management shall track mega-projects and report the financial status and schedule of these projects at least once a year to the transportation committees of the legislature.

**NEW SECTION. Sec. 605.** Based on the anticipated outcomes of the tolling study, to be conducted under section 206 of this act, the legislature intends that tolls be charged to offset or partially offset the costs for the following projects, and that a managed lane concept be applied in their design and implementation: State Route 520 Bridge replacement and HOV project, and widening of Interstate 405.

All moneys hereafter deposited in said account shall be used by the department of transportation for the construction, maintenance, and operation of recreational vehicle sanitary disposal systems at safety rest areas in accordance with the department's highway system plan as prescribed in chapter 47.06 RCW. During the 2005-2007 and 2007-2009 fiscal biennia, the legislature may transfer from the RV account to the motor vehicle fund such amounts as reflect the excess fund balance of the RV account.

**Sec. 702.** RCW 47.29.170 and 2006 c 370 s 604 are each amended to read as follows:

Before accepting any unsolicited project proposals, the commission must adopt rules to facilitate the acceptance, review, evaluation, and selection of unsolicited project proposals. These rules must include the following:

(1) Provisions that specify unsolicited proposals must meet predetermined criteria;

(2) Provisions governing procedures for the cessation of negotiations and consideration;

(3) Provisions outlining that unsolicited proposals are subject to a two-step process that begins with concept proposals and would only advance to the second step, which are fully detailed proposals, if the commission so directed;

(4) Provisions that require concept proposals to include at least the following information: Proposers' qualifications and experience; description of the proposed project and impact; proposed project financing; and known public benefits and opposition; and

(5) Provisions that specify the process to be followed if the commission is interested in the concept proposal, which must include provisions:

(a) Requiring that information regarding the potential project would be published for a period of not less than thirty days, during which time entities could express interest in submitting a proposal;

(b) Specifying that if letters of interest were received during the thirty days, then an additional sixty days for submission of the fully detailed proposal would be allowed; and

(c) Procedures for what will happen if there are insufficient proposals submitted or if there are no letters of interest submitted in the appropriate time frame.

2007 REGULAR SESSION

The commission may adopt other rules as necessary to avoid conflicts with existing laws, statutes, or contractual obligations of the state.

The commission may not accept or consider any unsolicited proposals before ~~(June 30, 2007)~~ July 1, 2009.

**NEW SECTION. Sec. 703.** To the extent that any appropriation authorizes expenditures of state funds from the motor vehicle account, special category C account, Tacoma Narrows toll bridge account, transportation 2003 account (nickel account), transportation partnership account, transportation improvement account, Puget Sound capital construction account, multimodal transportation account, or other transportation capital project account in the state treasury for a state transportation program that is specified to be funded with proceeds from the sale of bonds authorized in chapter 47.10 RCW, the legislature declares that any such expenditures made prior to the issue date of the applicable transportation bonds for that state transportation program are intended to be reimbursed from proceeds of those transportation bonds in a maximum amount equal to the amount of such appropriation.

**Sec. 704.** RCW 46.16.685 and 2003 c 370 s 4 are each amended to read as follows:

The license plate technology account is created in the state treasury. All receipts collected under RCW 46.01.140(4)(e)(ii) must be deposited into this account. Expenditures from this account must support current and future license plate technology and systems integration upgrades for both the department and correctional industries. Moneys in the account may be spent only after appropriation. Additionally, the moneys in this account may be used to reimburse the motor vehicle account for any appropriation made to implement the digital license plate system. During the 2007-2009 fiscal biennium, the legislature may transfer from the license plate technology account to the highway safety fund such amounts as reflect the excess fund balance of the license plate technology account.

**Sec. 705.** RCW 47.01.390 and 2006 c 311 s 27 are each amended to read as follows:

(1) Prior to commencing construction on either project, the department of transportation must complete all of the following requirements for both the Alaskan Way viaduct and Seattle Seawall replacement project, and the state route number 520 bridge replacement and HOV project: (a) In accordance with the national environmental policy act, the department must designate the preferred alternative, prepare a substantial project mitigation plan, and complete a comprehensive cost estimate review using the department's cost estimate validation process, for each project; (b) in accordance with all applicable federal highway administration planning and project management requirements, the department must prepare a project finance plan for each project that clearly identifies secured and anticipated fund sources, cash flow timing requirements, and project staging and phasing plans if applicable; and (c) the department must report these results for each project to the joint transportation committee.

(2) The requirements of this section shall not apply to (a) utility relocation work, and related activities, on the Alaskan Way viaduct and Seattle Seawall replacement project and (b) off-site pontoon construction supporting the state route number 520 bridge replacement and HOV project.

(3) The requirements of subsection (1) of this section shall not apply during the 2007-2009 fiscal biennium.

**Sec. 706.** RCW 88.16.090 and 2005 c 26 s 2 are each amended to read as follows:

(1) A person may pilot any vessel subject to this chapter on waters covered by this chapter only if licensed to pilot such vessels on such waters under this chapter.

(i) Is a citizen of the United States;

(ii) Is over the age of twenty-five years and under the age of seventy years;

EIGHTY-THIRD DAY, MARCH 31, 2007

2007 REGULAR SESSION

(iii) Is a resident of the state of Washington at the time of licensure as a pilot;

(iv)(A) Holds at the time of application, as a minimum, a United States government license as master of steam or motor vessels of not more than one thousand six hundred gross register tons (three thousand international tonnage convention tons) upon oceans, near coastal waters, or inland waters; or the then most equivalent federal license as determined by the board; any such license to have been held by the applicant for a period of at least two years before application;

(B) Holds at the time of licensure as a pilot, after successful completion of the board-required training program, a first class United States endorsement without restrictions on the United States government license for the pilotage district in which the pilot applicant desires to be licensed; however, all applicants for a pilot examination scheduled to be given before July 1, 2008, must have the United States pilotage endorsement at the time of application; and

(C) The board may establish such other federal license requirements for applicants and pilots as it deems appropriate; and

(v) Successfully completes a board-specified training program.

(b) In addition to the requirements of (a) of this subsection, a pilot applicant must meet such other qualifications as may be required by the board.

(c) A person applying for a license under this section shall not have been convicted of an offense involving drugs or the personal consumption of alcohol in the twelve months prior to the date of application. This restriction does not apply to license renewals under this section.

(3) The board may establish such other training license and pilot license requirements as it deems appropriate.

(4) Pilot applicants shall be evaluated and ranked in a manner specified by the board based on their experience, other qualifications as may be set by the board, performance on a written examination or examinations established by the board, and performance in such other evaluation exercises as may be required by the board, for entry into a board-specified training program.

When the board determines that the demand for pilots requires entry of an applicant into the training program it shall issue a training license to that applicant, but under no circumstances may an applicant be issued a training license more than four years after taking the written entry examination. The training license authorizes the trainee to do such actions as are specified in the training program.

After the completion of the training program the board shall evaluate the trainee's performance and knowledge. The board, as it deems appropriate, may then issue a pilot license, delay the issuance of the pilot license, deny the issuance of the pilot license, or require further training and evaluation.

(5) The board may appoint a special independent committee or may contract with a firm knowledgeable and experienced in the development of professional tests and evaluations for development and grading of the examinations and other evaluation methods. Active licensed state pilots may be consulted for the general development of any examinations and evaluation exercises but shall have no knowledge of the specific questions. The pilot members of the board may participate in the grading of examinations. If the board does appoint a special examination or evaluation development committee it is authorized to pay the members of the committee the same compensation and travel expenses as received by members of the board. Any person who willfully gives advance knowledge of information contained on a pilot examination or other evaluation exercise is guilty of a gross misdemeanor.

(6) Pilots are licensed under this section for a term of five years from and after the date of the issuance of their respective state licenses. Licenses must thereafter be renewed as a matter of course, unless the board withholds the license for good cause.

Each pilot shall pay to the state treasurer an annual license fee ~~((of three thousand dollars)) in an amount set by the board by rule. The fees established under this subsection may be increased in excess of the fiscal growth factor as provided in RCW 43.135.055 through the fiscal year ending June 30, 2009.~~ The fees must be deposited in the state treasury to the credit of the pilotage account. The board may assess partially active or inactive pilots a reduced fee.

(7) All pilots and applicants are subject to an annual physical examination by a physician chosen by the board. The physician shall examine the applicant's heart, blood pressure, circulatory system, lungs and respiratory system, eyesight, hearing, and such other items as may be prescribed by the board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician's report, the board shall make a determination of whether the pilot or applicant is fully able to carry out the duties of a pilot under this chapter. The board may in its discretion check with the appropriate authority for any convictions of offenses involving drugs or the personal consumption of alcohol in the prior twelve months.

(8) The board may require vessel simulator training for a pilot applicant and shall require vessel simulator training for a licensed pilot subject to RCW 88.16.105. The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

(9) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims. Willful misrepresentation of such required information by a pilot applicant shall result in disqualification of the pilot applicant.

**Sec. 707.** RCW 47.12.244 and 1991 c 291 s 2 are each amended to read as follows:

There is created the "advance right of way revolving fund" in the custody of the treasurer, into which the department is authorized to deposit directly and expend without appropriation:

(1) An initial deposit of ten million dollars from the motor vehicle fund included in the department of transportation's 1991-93 budget;

(2) All moneys received by the department as rental income from real properties that are not subject to federal aid reimbursement, except moneys received from rental of capital facilities properties as defined in chapter 47.13 RCW; and

(3) Any federal moneys available for acquisition of right of way for future construction under the provisions of section 108 of Title 23, United States Code.

(4) During the 2007-09 fiscal biennium, the legislature may transfer from the advance right of way revolving fund to the motor vehicle account amounts as reflect the excess fund balance of the advance right of way revolving fund.

**Sec. 708.** RCW 70.95.521 and 2005 c 354 s 3 are each amended to read as follows:

The waste tire removal account is created in the state treasury. All receipts from tire fees imposed under RCW 70.95.510 must be deposited in the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used for the cleanup of unauthorized waste tire piles and measures that prevent future accumulation of unauthorized waste tire piles. During the 2007-2009 fiscal biennium, the legislature may transfer from the waste tire removal account to the motor vehicle fund such amounts as reflect the excess fund balance of the waste tire removal account.

**NEW SECTION. Sec. 709.** The department of transportation, in conjunction with the office of financial management, must implement the governmental accounting

EIGHTY-THIRD DAY, MARCH 31, 2007

standards board's (GASB) statement number 34 including a complete inventory and valuation of the state's highway system. The financial reporting value of the state's highway system must be adjusted for any new additions to the system. The biennial reporting of the condition of the system must be related to the funding levels of maintaining the system. The department must maintain a current inventory of the state's highway system and estimate the actual cost to maintain and preserve the assets. In addition to the GASB statement 34, the department of transportation with the office of financial management's assistance must establish an asset replacement value for the entire state's highway system. During 2007, the speaker of the house of representatives must select one member from each caucus to work with the office of financial management and the department of transportation. The purpose of this effort is to enhance decision making that will result in strategic long-term investment decisions in transportation capital project management and asset preservation. The office of financial management will coordinate and manage the inventory and the valuation. The office of financial management must submit a final report to the legislative transportation committees on or before December 1, 2008.

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) \$200,000 of the total appropriation is provided solely for the joint transportation committee to conduct a finance study of the Washington state ferry system. The purpose of the study is to facilitate policy discussions and decisions by members of the legislature regarding the Washington state ferry system. The legislature recognizes there is a need within the Washington state ferry system for predictable cash flows, transparency, assessment of organizational structure, verification that the Washington state ferry system is operating at maximum efficiency, and better labor relations. The committee shall report the study to the house of representatives and senate transportation committees by January 1, 2007.

(b) The study must include, at a minimum, a review and evaluation of the ferry system's financial plan, including current assumptions and past studies, in the following areas:

(3) Funds provided in this section are sufficient for the committee to administer a study of the most reliable and cost-effective means of providing passenger-only ferry service.

(a) The study shall be guided by a 18 member task force consisting of the chairs and ranking members of the house of representatives and senate transportation committees, a designee of the director of the office of financial management, a member of the transportation commission, a designee of the secretary of transportation, a representative of organized labor, and ten stakeholders to be appointed by the governor as follows: Six representatives of ferry user communities, two representatives of public transportation agencies, and two representatives of commercial ferry operators.

The scope of work for the study may be expanded to include analysis of other financing issues relevant to the long-term viability of the state's transportation system.~~

~~(b) The findings and recommendations must be submitted to the fiscal committees of the legislature by November 1, 2006.~~

~~(5)) \$75,000 of the motor vehicle account--state appropriation is provided solely for the joint transportation committee to contract for a review of existing research on programs and policies which decrease accidents by teenage drivers, including but not limited to publicly operated driver education and intermediate drivers licensing programs. The institute shall also evaluate the costs and benefits of programs and policies showing the greatest positive impact on teenage driving safety.~~

~~((6)) (5) The committee shall conduct an evaluation of the department of transportation surface transportation program enhancement grant program. The evaluation will include (a) information about the categories of projects submitted for consideration; (b) a review of the allocation of funds awarded across the categories of STP enhancement eligible activities; (c) a review of the criteria used to score projects; and (d) a finding by the committee whether certain categories of projects are disproportionately funded or unfunded.~~

Sec. 805. 2006 c 370 s 208 (uncodified) is amended to read as follows:

**FOR THE WASHINGTON STATE PATROL--FIELD OPERATIONS BUREAU**

State Patrol Highway Account--State Appropriation	<del>(\$201,063,000)</del>
.....	<u>\$197,234,000</u>
State Patrol Highway Account--Federal Appropriation	\$10,544,000
State Patrol Highway Account--Private/Local Appropriation	\$169,000
.....	<del>\$(211,776,000)</del>
TOTAL APPROPRIATION	<u>\$207,947,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) Washington state patrol officers engaged in off-duty uniformed employment providing traffic control services to the department of transportation or other state agencies may use state patrol vehicles for the purpose of that employment, subject to guidelines adopted by the chief of the Washington state patrol. The Washington state patrol shall be reimbursed for the use of the vehicle at the prevailing state employee rate for mileage and hours of usage, subject to guidelines developed by the chief of the Washington state patrol. The patrol shall report to the house of representatives and senate transportation committees by December 31, 2005, on the use of agency vehicles by officers engaging in the off-duty employment specified in this subsection. The report shall include an analysis that compares cost reimbursement and cost-impacts, including

increased vehicle mileage, maintenance costs, and indirect impacts, associated with the private use of patrol vehicles.

(2) In addition to the user fees, the patrol shall transfer into the state patrol nonappropriated airplane revolving account under RCW 43.79.470 no more than the amount of appropriated state patrol highway account and general fund funding necessary to cover the costs for the patrol's use of the aircraft. The state patrol highway account and general fund--state funds shall be transferred proportionately in accordance with a cost allocation that differentiates between highway traffic enforcement services and general policing purposes.

(3) The patrol shall not account for or record locally provided DUI cost reimbursement payments as expenditure credits to the state patrol highway account. The patrol shall report the amount of expected locally provided DUI cost reimbursements to the transportation committees of the senate and house of representatives by December 31st of each year.

(4) The state patrol highway account--state appropriation for DUI reimbursements shall only be spent for pursuit vehicle video cameras, datamaster DUI testing equipment, tire deflator equipment, and taser guns. The Washington state patrol prior to the issuance of any taser guns will train the troopers on using the equipment. The agency will provide a report to the transportation committees of the senate and house of representatives by December 31st of each year on the occurrences where the taser guns were utilized along with any issues that have been identified.

(5) \$29,000 of the state patrol highway account--state appropriation is provided solely for the implementation of House Bill No. 1469. If House Bill No. 1469 is not enacted by June 30, 2005, the amount provided in this subsection shall lapse.

(6) \$5,580,000 of the total appropriation is provided solely for a 3.8% salary increase for commissioned officers effective July 1, 2005, in addition to any other salary increases provided for in this act.

(7) The Washington state patrol is authorized to use certificates of participation to fund the King Air aircraft replacement over a term of not more than ten years and an amount not to exceed \$1,900,000.

(8)(a) \$834,000 of the state patrol highway account--state appropriation is provided solely for the collective bargaining agreement reached between the governor and the Washington state patrol troopers association under chapter 438, Laws of 2005. For commissioned troopers and sergeants covered under this section, funding is provided for a 2.6% salary increase effective July 1, 2006. This increase supersedes the fiscal year 2007 increase granted under section 501, chapter 313, Laws of 2005. Provisions of the collective bargaining agreement contained in this subsection are described in general terms. Only major economic terms are included in this description. This description does not contain the complete contents of the agreement. Due to the timing challenges in negotiating the initial collective bargaining agreement under chapter 438, Laws of 2005, this agreement was not concluded by the October 1st statutory deadline. However, the legislature does not intend to fund bargaining agreements concluded after the October 1st deadline, or other salary increases not included in the governor's budget proposal, in future biennia.

(b) \$62,000 of the state patrol highway account--state appropriation is provided solely for salary increases for commissioned captains and lieutenants covered under this section, if a new collective bargaining agreement is reached between the governor and the Washington state patrol lieutenants association by July 1, 2006. The amount provided in this subsection is contingent on an agreement being reached by July 1, 2006, and shall be held in reserve status until the agreement is reached. If an agreement is not reached by July 1, 2006, the amount provided in this subsection shall lapse. If an agreement is reached by July 1, 2006, the increase supersedes the fiscal year 2007 increase granted under section 501, chapter

EIGHTY-THIRD DAY, MARCH 31, 2007

313, Laws of 2005. Due to the timing challenges in negotiating a collective bargaining agreement funded under this subsection, the agreement will not have been concluded by the October 1st statutory deadline. However, the legislature does not intend to fund bargaining agreements concluded after the October 1st deadline, or other salary increases not included in the governor's budget proposal, in future biennia.

The appropriations in this section are subject to the following conditions and limitations:

(1) In order to qualify for state planning funds available to regional transportation planning organizations under this section, a regional transportation planning organization containing any county with a population in excess of one million shall provide voting membership on its executive board to any incorporated principal city of a metropolitan statistical area within the region, as designated by the United States census bureau, and to any incorporated city within the region with a population in excess of eighty thousand as of July 1, 2005. Additionally, a regional transportation planning organization described under this subsection shall conduct a review of its executive board membership criteria to ensure that the criteria appropriately reflects a true and comprehensive representation of the organization's jurisdictions of significance within the region.

(2) \$175,000 of the motor vehicle account--state appropriation is provided to the department in accordance with RCW 46.68.110(2) and 46.68.120(3) and shall be used by the department to support the processing and analysis of the backlog of city and county collision reports by January 2006. (4) The department of transportation shall evaluate the number of spaces available for long-haul truck parking relative to current and projected future needs. The department of transportation shall also explore options for augmenting the number of spaces available, including, but not limited to, expanding state-owned rest areas or modifying regulations governing the use of these facilities, utilizing weigh stations and park and ride lots, and encouraging the expansion of the private sector's role. Finally, the department shall explore the utility of coordinating with neighboring states on long-haul truck parking and evaluate methodologies for alleviating any air quality issues relative to the issue. The department must report to the transportation committees of the legislature by December 1,

2005, on the options, strategies, and recommendations for long-haul truck parking.

(5) \$50,000 of the multimodal transportation account--state appropriation is provided solely for evaluating high-speed passenger transportation facilities and services, including rail or magnetic levitation transportation systems, to connect airports as a means to more efficiently utilize airport capacity, as well as connect major population and activity centers. This evaluation shall be coordinated with the airport capacity and facilities market analysis conducted pursuant to Engrossed Substitute Senate Bill No. 5121 and results of the evaluation shall be submitted by July 1, 2007. If Engrossed Substitute Senate Bill No. 5121 is not enacted by June 30, 2005, or if federal funds are not received by March 1, 2006, for the purpose of implementing Engrossed Substitute Senate Bill No. 5121, the amount provided in this subsection shall lapse.

(7) The department shall conduct a study of the resources allocated to each of the seven department regions and the corresponding workloads. Given the magnitude of the investments in the Puget Sound region, particular emphasis shall be given to reviewing the resources allocated and corresponding workloads with respect to the urban corridors region and the northwest region. If Engrossed Substitute House Bill No. 2871 is not enacted by June 30, 2006, the amount provided in this subsection shall lapse. The regional transportation commission's duties to develop, complete, and submit a governance proposal to the 2007 legislature are highly time sensitive. As a result, the legislature finds that competitive bidding is not cost-effective or appropriate for personal service contracts entered into by the commission, and that the director of the office of financial management should, by the director's authority under RCW 39.29.011(5), exempt any such personal service contract from the competitive bidding requirements of chapter 39.29 RCW.

The department shall convene a committee to oversee the analysis, with the committee comprised of, at a minimum, four members of the transportation committees of the legislature, four members

EIGHTY-THIRD DAY, MARCH 31, 2007

of the appropriate land use committees of the legislature, and one member each from the association of Washington cities and the Washington state association of counties, or a designee thereof. (11) The department of transportation, the Washington state economic revenue forecast council, and the office of financial management shall review and adopt a method of forecasting motor vehicle and special fuel prices, revenue, and the amount of consumption that has an increased rate of accuracy as compared to the existing method. The three agencies shall submit a report to the transportation committees of the legislature by December 1, 2006, outlining the methods researched and the criteria utilized to select and adopt the new fuel forecasting method.

(12) \$150,000 of the multimodal transportation account--state appropriation is provided solely for a transportation demand management program, developed by the Whatcom council of governments, to further reduce drive-alone trips and maximize the use of sustainable transportation choices. The department shall promptly close out grants when projects have been completed, and identify where unused grant funds remain because actual project costs were lower than estimated in the grant award. When funds become available either because grant awards have been rescinded for lack of sufficient project activity or because completed projects returned excess grant funds upon project closeout, the department shall expeditiously extend new grant awards to qualified alternative projects identified on the list.

EIGHTY-THIRD DAY, MARCH 31, 2007

2007 REGULAR SESSION

(1) To manage some projects more efficiently, federal funds may be transferred from program Z to programs I and P and state funds shall be transferred from programs I and P to program Z to replace those federal funds in a dollar-for-dollar match. Fund transfers authorized under this subsection shall not affect project prioritization status. Appropriations shall initially be allotted as appropriated in this act. The department may not transfer funds as authorized under this subsection without approval of the office of financial management. The department shall submit a report on those projects receiving fund transfers to the transportation committees of the senate and house of representatives by December 1, 2006.

(2) The department shall, on a quarterly basis, provide status reports to the legislature on the delivery of projects as outlined in the project lists distributed with this act, and on any additional projects for which the department has expended funds during the 2005-07 fiscal biennium, except for projects managed by the freight mobility strategic investment board. The department shall work with the transportation committees of the legislature to agree on report formatting and elements. For projects funded by new revenue in the 2003 and 2005 transportation packages, reporting elements shall include, but not be limited to, project scope, schedule, and costs. Other projects may be reported on a programmatic basis. The department shall also provide the information required under this subsection on a quarterly basis via the transportation executive information system (TEIS).

(3) The multimodal transportation account--state appropriation includes up to \$6,000,000 in proceeds from the sale of bonds authorized by RCW 47.10.867.

(4) \$1,545,000 of the multimodal transportation account--state appropriation is reappropriated and provided solely to fund the multiphase cooperative project with the state of Oregon to dredge the Columbia River. (5) Up to \$206,000 of the motor vehicle account--state appropriation is reappropriated and provided ~~((solely))~~ for additional traffic and pedestrian safety improvements near schools. The highways and local programs division within the department of transportation shall administer this program. Any project that has been awarded traffic and pedestrian safety improvement grant funds, but does not report activity on the project within one year of grant award should be reviewed by the department to determine whether the grant should be terminated. The department must promptly close out grants when projects have been completed, and identify where unused grant funds remain because actual project costs were lower than estimated in the grant award. The department shall expeditiously extend new grant awards to qualified projects when funds become available either because grant awards have been rescinded for lack of sufficient project activity or because completed projects returned excess grant funds upon project closeout.

(6) The motor vehicle account--state appropriation includes up to \$905,000 in unexpended proceeds from the sale of bonds authorized by RCW 47.10.843.

(7) Up to \$607,000 of the multimodal transportation account--state appropriation is reappropriated and provided ~~((solely))~~ to support the safe routes to school program.

(11) The department shall issue a call for pedestrian safety projects, such as safe routes to schools and transit, and bicycle and pedestrian paths. Applications must be received by the department by November 1, 2005, and November 1, 2006. The department shall identify cost-effective projects, and submit a prioritized list to the legislature for funding by December 15th of each year. Recommendations made to the legislature for safe routes to schools and bicycle and pedestrian path projects must, to the extent practicable based on available funding, allocate sixty percent of available funds to bicycle and pedestrian path projects and forty percent to safe routes to schools. Any project that has been awarded funds, but does not report activity on the project within one year of the grant award, shall be reviewed by the department to determine whether the grant should be terminated. The department shall promptly close out grants when projects have been completed, and identify where unused grant funds remain because actual project costs were lower than estimated in the grant award. When funds become available either because grant awards have been rescinded for lack of sufficient project activity or because completed projects returned excess grant funds upon project closeout, the department shall expeditiously extend new grant awards to qualified alternative projects identified on the list.

General Fund--State Appropriation (FY 2009) . . .	\$312,172,000
General Fund--Federal Appropriation . . . . .	\$378,358,000

<b>TOTAL APPROPRIATION . . . . .</b>	<b>\$1,002,653,000</b>

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$105,583,000 of the general fund--state appropriation for fiscal year 2008 and \$106,707,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for persons and services not covered by the medicaid program. These funds shall be distributed proportionally to each regional support network's percentage of the total state population. Included in these amounts are inflationary increases of 1.6 percent effective July 2007 and an additional 1.0 percent effective July 2008.

(b) \$16,900,000 of the general fund--state appropriation for fiscal year 2008 and \$16,900,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the department and regional support networks to contract for development and initial implementation of high-intensity program for active community treatment (PACT) teams, and other proven program approaches which the department concurs will enable the regional support network to achieve significant reductions during fiscal year 2008 and thereafter in the number of beds the regional support network would otherwise need to use at the state hospitals.

(c) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 222 per day throughout fiscal year 2008. Beginning January 1, 2009, the number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(e) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services shall be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the required nonfederal share of the increased medicaid payment provided for operation of this project.

(f) At least \$902,000 of the federal block grant funding appropriated in this subsection shall be used for the continued operation of the mentally ill offender pilot program.

(g) \$5,147,000 of the general fund--state appropriation for fiscal year 2008 and \$5,242,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon mentally ill offenders' release from confinement. The department is authorized to transfer up to \$418,000 of these amounts each fiscal year to the economic services program for purposes of facilitating prompt access after their release from confinement to medical and income assistance services for which defendants and offenders may be eligible.

(h) \$1,548,000 of the general fund--state appropriation for fiscal year 2008 and \$1,579,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for grants for innovative mental health service delivery projects. Such projects may include, but are not limited to, clubhouse programs and projects for integrated health care and behavioral health services for general assistance recipients. These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(i) The department is authorized to continue to expend federal block grant funds and special purpose federal grants through direct contracts, rather than through contracts with regional support networks, and to allocate such funds through such formulas as it shall adopt.

(j) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(k) \$2,250,000 of the general fund--state appropriation for fiscal year 2008, \$2,250,000 of the general fund--state appropriation for fiscal year 2009, and \$4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration.

(l) \$774,000 of the general fund--state appropriation for fiscal year 2008 and \$789,000 of the general fund--state appropriation for fiscal year 2009 are provided to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative during the 2003-05 biennium. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(m) \$796,000 of the general fund--state appropriation for fiscal year 2008, \$1,422,000 of the general fund--state appropriation for fiscal year 2009, and \$908,000 of the general fund--federal appropriation are provided solely to phase-in new payment rates for medicaid psychiatric inpatient services. Under the new system, consistent with the way rates are set for the treatment of physical illnesses, payment rates for psychiatric inpatient care are to be set at the statewide industry average per diem cost, adjusted for regional wage differences and for differences in capital costs. To facilitate the transition to this new system, for hospitals that are expected to provide over 200 patient days of inpatient psychiatric care per year, rates shall not increase by more than an additional 10 percent each year, nor decrease by more than an additional 5 percent each year, until all hospitals are paid at the adjusted statewide average rate.

(n) \$5,077,000 of the general fund--state appropriation for fiscal year 2008 and \$5,077,000 of the general fund--state appropriation for fiscal year 2009 are provided solely to increase payment rates for nonmedicaid psychiatric inpatient services above fiscal year 2005 levels. The department shall pay a standard statewide per diem rate for nonmedicaid psychiatric inpatient services, adjusted for regional wage differences, and hospital-specific capital and medical education costs, with no provision for phase-in.

(o) \$3,093,000 of the general fund--state appropriation and \$1,902,000 of the general fund--federal appropriation for fiscal year 2008 are provided solely to increase compensation for community mental health direct care staff effective January 2008. \$9,454,000 of the general fund--state appropriation and \$5,905,000 of the general fund--federal appropriation for fiscal year 2009 are provided solely to continue the January 2008 increase, and to provide an additional compensation increase for direct care staff effective January 2009. As used in this subsection, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness. The term excludes employees whose duties are primarily administrative, and contractors. In order to obtain compensation pass-through funding, a community mental health agency must first provide a plan and budget to its regional support network demonstrating how the full amount of the pass-through, except for the appropriate employer share of applicable payroll taxes, will be used to increase wages or benefits for direct care staff. Upon approval of the plan, in order to access the funds, the agency must submit to the regional support network and to the department of social and health services a legally binding written certification that it will increase compensation for its direct care staff as provided in the plan and budget. An agency's plan shall be approved and it shall be deemed to have met the certification requirement by submitting an executed collective bargaining agreement that increases compensation for direct care staff by an amount commensurate with the additional funding provided. If judged appropriate by the regional support network or the department, participating agencies shall be audited to determine whether their certification has been fulfilled.

(p) Within funds provided in this subsection (1), medicaid capitation rates shall be increased by 1.6 percent effective July 2007, and by an additional 1.0 percent effective July 2008.

(q) \$2,071,000 of the general fund--state appropriation for fiscal year 2008 and \$1,733,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the

EIGHTY-THIRD DAY, MARCH 31, 2007

implementation of Substitute House Bill No. 1456 (mental health professionals). If the bill is not enacted by June 30, 2007, the amounts provided in this subsection shall lapse. For purposes of organizing and delivering training as required by the bill, the department may retain up to fifteen percent of the amount appropriated for fiscal year 2008, and up to ten percent of the amount appropriated for fiscal year 2009. The remainders shall be distributed to regional support networks proportional to each network's percentage of the total state population.

If this can be accomplished, additional clients may be served with excess funds if the total projected carry-forward expenditures do not exceed the amounts estimated. (iii) Payment methodologies should be designed to support retention of qualified direct care staff through training, wages, and benefits offered to direct care staff, with special consideration given to nursing homes, boarding homes, and adult family homes that care for a disproportionate number of medicaid-eligible residents relative to their peer facilities;

(iv) Performance measures related to critical issues such as staff retention and resident outcomes should be developed, with payment linked to facility performance on the measures; and

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(4) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is equivalent to the benefit provided in the 2003-05 biennium.

(5) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(6) \$1,111,000 of the health services account appropriation for fiscal year 2008, \$1,110,000 of the health services account appropriation for fiscal year 2009, \$5,402,000 of the general fund--federal appropriation, \$1,590,000 of the general fund--state appropriation for fiscal year 2008, and \$1,591,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for grants to rural hospitals. (7) \$10,546,000 of the health services account appropriation for fiscal year 2008, \$10,546,000 of the health services account--state appropriation for fiscal year 2009, and \$19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2007-2009 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit a report to the governor and legislature by November 1, 2007, which evaluates whether savings continue to exceed costs for this program. If the certified public expenditures program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2008 and fiscal year 2009, hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount that is the total of (a) the total payment for claims for

services rendered during the fiscal year calculated according to the methodology employed by the legislature in the omnibus appropriations act for implementation in fiscal year 2008 and (b) disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 that pertain to fiscal year 2005. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and is subject to an interim cost settlement within eleven months after the end of the fiscal year. A final cost settlement shall be performed within two years after the end of the related fiscal year. To the extent that a final cost settlement determines that a hospital has received funds in excess of what it would have received under the methodology in place in fiscal year 2008 as described in this subsection, the hospital must repay these amounts to the state when requested. \$74,477,000 of the general fund--state appropriation for fiscal year 2008, of which \$6,570,000 is appropriated in section 204(1) of this act and the balance in this section, and \$70,668,000 of the general fund--state appropriation for fiscal year 2009, of which \$6,570,000 is appropriated in section 204(1) of this act and the balance in this section, are provided solely for state grants for the participating hospitals.

The amounts are conditioned on the department satisfying the requirements of section 902 of this act.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) The medical assistance administration is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the administration determines it is cost-effective to do so.

(12) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(13) The department shall, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. The project may use a full or partial capitation model that includes a mechanism for shared savings.

(14) \$341,000 of the health services account appropriation for fiscal year 2008, \$1,054,000 of the health services account appropriation for fiscal year 2009, and \$1,461,000 of the general fund--federal appropriation are provided solely to implement Substitute Senate Bill No. 5305 (foster care youth medical). The department shall contract with the Seattle-King county health department to have trained community health workers visit medicaid eligible children in their homes to identify and reduce exposure to asthma triggers, improve clients' self-management skills, and coordinate clients' care with their primary care and specialty providers. The contract shall include an evaluation of the impact of the services provided under the contract on urgent physician's visits, emergency room utilization, and inpatient hospitalization.

2007 REGULAR SESSION

(i) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 2007-08 and 2008-09 school years shall be calculated using formula-generated classified staff units determined as follows:

(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one classified staff unit for each sixty average annual full-time equivalent students; and

(c) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit.

(4) Fringe benefit allocations shall be calculated at a rate of 14.63 percent in the 2007-08 school year and 16.40 percent in the 2008-09 school year for certificated salary allocations provided under subsection (2) of this section, and a rate of 17.24 percent in the 2007-08 school year and 18.54 percent in the 2008-09 school year for classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504(2) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$9,703 per certificated staff unit in the 2007-08 school year and a maximum of \$9,907 per certificated staff unit in the 2008-09 school year.

Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any

portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of \$16,622,000 outside the basic education formula during fiscal years 2008 and 2009 as follows:

The funds shall be allocated at a rate not to exceed \$500 per full-time equivalent student enrolled in those programs; and

(e) \$4,714,000 of the education legacy trust account appropriation for fiscal year 2008 and \$4,673,000 of the education legacy trust account appropriation for fiscal year 2009 are provided solely for allocations for equipment replacement in vocational programs and skills centers. Each year of the biennium, the funding shall be allocated based on \$75 per full-time equivalent vocational student and \$125 per full-time equivalent skills center student.

(f) \$2,991,000 of the general fund--state appropriation for fiscal year 2008 and \$4,403,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the implementation of Second Substitute Senate Bill No. 5790 (regarding skills centers). (a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2)(a) through (h) of this section shall be reduced in increments of twenty percent per year.

**NEW SECTION. Sec. 503. (b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

- (i) Credits earned since receiving the masters degree; and
- (ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

- (a) "BA" means a baccalaureate degree.
- (b) "MA" means a masters degree.
- (c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

- (a) The employee has a masters degree; or
- (b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 2 and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180- day contract year. If fewer days are added, the additional learning improvement allocation shall be

adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school- wide, all staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2) and subsection (7) of this section.

2007 REGULAR SESSION

allocations above the statewide salary allocation schedule, and to certain grandfathered districts to the extent necessary to ensure that salary allocations for districts that are currently grandfathered do not fall below the statewide salary allocation schedule. These additional salary increases will result in a decrease in the number of grandfathered districts from the current thirty-four to twenty-four in the 2007-08 school year and to thirteen in the 2008-09 school year.

(c) Additional salary increases to certain districts as necessary to fund the per full-time-equivalent salary allocations for certificated administrative staff as listed for each district in LEAP Document 2, defined in section 503(2)(b) of this act. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 502 and 503 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 502 and 503 of this act.

School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall ensure that:

(i) Special education students are basic education students first;

(ii) As a class, special education students are entitled to the full basic education allocation; and

(iii) Special education students are basic education students for the entire school day.

(b) All districts shall use the excess cost methodology first developed and implemented for the 2001-02 school year using

the S-275 personnel reporting system and all related accounting requirements.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

(5)(a) For the 2007-08 and 2008-09 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, \$30,690,000 of the general fund--state appropriation and \$29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(11) Pursuant to Engrossed Second Substitute Senate Bill No. 5841 (enhancing student learning opportunities), the office of superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process. The safety net oversight committee shall study the excess cost accounting method and explore options for a possible replacement, including an option that reflects the full amount of special education funding and the legislative direction to ensure that as a class, special education students are entitled to the full basic education allocation.

(12) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) A maximum of \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(14) \$50,000 of the general fund--state appropriation for fiscal year 2008, \$50,000 of the general fund--state appropriation for fiscal 2009, and \$100,000 of the general fund--federal appropriation shall be expended to support a special education ombudsman program within the office of superintendent of public instruction. The ombudsman program will provide data, information, and appropriate recommendations to the office of superintendent of public instruction, school districts, educational service districts, state need projects, and the parent and teacher information center.

(15) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(16) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services.

(17) The superintendent, consistent with the new federal IDEA reauthorization, shall continue to educate school districts on how to implement a birth-to-three program and review the cost effectiveness and learning benefits of early intervention.

(18) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(19) \$262,000 of the general fund--state appropriation for fiscal year 2008 and \$251,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for two additional full-time equivalent staff to support the work of the safety net committee and to provide training and support to districts applying for safety net awards.

**NEW SECTION. Sec. 902. INFORMATION SYSTEMS PROJECTS.** Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

- (a) System refurbishment, acquisitions, and development efforts;
- (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
- (c) Assessment of overall information processing performance, resources, and capabilities;
- (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
- (e) Progress toward enabling electronic access to public information.

(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of

digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

The same terms and conditions of participation and coverage, including eligibility criteria, shall apply to state employees and to school district employees and educational service district employees.

The board shall require participating school district and educational service district employees to pay at least the same employee premiums by plan and family size as state employees pay.

(a) Participation of eligible employees or retired employees and retired school employees in any long-term care insurance plan made available by the public employees' benefits board is voluntary and shall not be subject to binding arbitration under chapter 41.56 RCW. Participation is subject to reasonable underwriting guidelines and eligibility rules established by the public employees' benefits board and the health care authority.

(b) The employee, retired employee, and retired school employee are solely responsible for the payment of the premium rates developed by the health care authority. The health care authority is authorized to charge a reasonable administrative fee in addition to the premium charged by the long-term care insurer, which shall include the health care authority's cost of administration, marketing, and consumer education materials prepared by the health care authority and the office of the insurance commissioner.

(c) To the extent administratively possible, the state shall establish an automatic payroll or pension deduction system for the payment of the long-term care insurance premiums.

The technical advisory committee shall be comprised, at a minimum, of representatives of the office of the insurance commissioner, providers of long-term care services, licensed insurance agents with expertise in long-term care insurance, employees, retired employees, retired school employees, and other interested parties determined to be appropriate by the board.

(e) The health care authority shall offer employees, retired employees, and retired school employees the option of purchasing long-term care insurance through licensed agents or brokers appointed by the long-term care insurer. The authority, in consultation with the public employees' benefits board, shall establish marketing procedures and may consider all premium components as a part of the contract negotiations with the long-term care insurer.

(f) In developing the long-term care insurance benefit designs, the public employees' benefits board shall include an alternative plan of care benefit, including adult day services, as approved by the office of the insurance commissioner.

(g) The health care authority, with the cooperation of the office of the insurance commissioner, shall develop a consumer education program for the eligible employees, retired employees, and retired school employees designed to provide education on the potential need for long-term care, methods of financing long-term care, and the availability of long-term care insurance products including the products offered by the board.

(h) By December 1998, the health care authority, in consultation with the public employees' benefits board, shall submit a report to the appropriate committees of the legislature, including an analysis of the marketing and distribution of the long-term care insurance provided under this section.

Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(8)(a) \$150,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the military department to: (i) Initiate a health registry for veterans and military personnel returning from Afghanistan, Iraq, or other countries in which depleted uranium or other hazardous materials may be found; (ii) develop a plan for outreach to and follow-up of military personnel; (iii) prepare a report for service members concerning potential exposure to depleted uranium and other toxic chemical substances and the precautions recommended under combat and noncombat conditions while in a combat zone; (iv) submit a report by October 1, 2006, to the joint veterans and military affairs committee on the scope and adequacy of training received by members of the Washington national guard on detecting whether their service as eligible members is likely to entail, or to have entailed, exposure to depleted uranium, including an assessment of the feasibility and cost of adding predeployment training concerning potential exposure to depleted uranium and other toxic chemical substances; and (v) study the health effects of hazardous materials exposure including, but not limited to, depleted uranium, as they relate to military service and submit a report and recommendations to the joint veterans and military affairs committee.

Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$103,400,000 of the general fund--state appropriation for fiscal year 2006 is provided solely for persons and services not covered by the medicaid program. The department shall distribute this amount among the regional support networks according to a formula that, consistent with RCW 71.24.035(13), assures continuation of fiscal year 2003 levels of nonmedicaid service in each regional support network area for the following service categories in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance. (b) \$100,959,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for persons and services not covered by the medicaid program. Consistent with RCW 71.24.035(13), these funds shall be distributed proportional to each regional support network's percentage of the total state population.

Regional support networks may elect to receive all or a portion of the general fund--state share of the funding for which they qualify under this subsection (1)(c) as an increase in nonmedicaid rather than medicaid funding. Regional support networks choosing to obtain funding in this way must notify the department of their decision no later than June 1, 2006.

(d) ~~(\$359,000)~~ \$2,175,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to ensure that no regional support network's combined state and federal allocation is less than the amount it was due under the fiscal year 2006 allocation methodology.

The payments directed in this subsection

(h) The department shall refund to the regional support networks 100 percent of the "liquidated damages" that have been withheld from payments to the regional support network during fiscal year 2006 for periods prior to the effective date of this act. The payments directed in this subsection (1)(h) do not apply to regional support networks to which such refunds have been directed by court order prior to the effective date of this act.

(i) \$3,238,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the department and regional support networks to contract for development and initial implementation of high-intensity program for active community treatment (PACT) teams, and other proven program approaches which the department concurs will enable the regional support network to achieve significant reductions during fiscal year 2008 and thereafter in the number of beds the regional support network would otherwise need to use at the state hospitals.

(j) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall average 222 per day throughout fiscal year 2007. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall average 727 during the first quarter of fiscal year 2007, 757 during the second quarter of fiscal year 2007, and 777 during the third and fourth quarters of fiscal year 2007. During fiscal year 2007, the department shall not separately charge regional support networks for use of state hospital beds for short-term commitments, or for persons served in the program for adaptive living skills (PALS), but the days of care provided for such commitments and in the PALS program shall count against the regional support network's state hospital allocation. The legislature intends to authorize separate charges for the PALS program beginning in January 2008.

(k) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(l) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services shall be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the required nonfederal share of the increased medicaid payment provided for operation of this project.

(m) \$3,100,000 of the general fund--state appropriation for fiscal year 2006 and \$3,375,000 of the general fund--state appropriation for fiscal year 2007 are provided solely to establish a base community psychiatric hospitalization payment rate. The base payment rate shall be \$400 per indigent patient day at hospitals that accept commitments under the involuntary treatment act, and \$550 per medicaid patient day at free-

standing psychiatric hospitals that accept commitments under the involuntary treatment act. The department shall allocate these funds among the regional support networks to reflect projected expenditures at the enhanced payment level by hospital and region.

(n) At least \$902,000 of the federal block grant funding appropriated in this subsection shall be used for the continued operation of the mentally ill offender pilot program.

(o) \$5,000,000 of the general fund--state appropriation for fiscal year 2006 and \$5,000,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon mentally ill offenders' release from confinement. These amounts shall supplement, and not supplant, local or other funding or in-kind resources currently being used for these purposes. The department is authorized to transfer such amounts as are necessary, which are not to exceed \$418,000 of the general fund--state appropriation for fiscal year 2006 and \$418,000 of the general fund--state appropriation for fiscal year 2007, to the economic services program for the purposes of implementing section 12 of Engrossed Second Substitute House Bill No. 1290 (community mental health) related to reinstating and facilitating access to mental health services upon mentally ill offenders' release from confinement.

(p) \$1,500,000 of the general fund--state appropriation for fiscal year 2006 and \$1,500,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants for innovative mental health service delivery projects. Such projects may include, but are not limited to, clubhouse programs and projects for integrated health care and behavioral health services for general assistance recipients. These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(q) The department is authorized to continue to expend federal block grant funds, and special purpose federal grants, through direct contracts, rather than through contracts with regional support networks; and to distribute such funds through a formula other than the one established pursuant to RCW 71.24.035(13).

(r) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(s) \$2,250,000 of the general fund--state appropriation for fiscal year 2006, \$2,250,000 of the general fund--state appropriation for fiscal year 2007, and \$4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration. The funds are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13)(a).

(t) \$750,000 of the general fund--state appropriation for fiscal year 2006 and \$750,000 of the general fund--state appropriation for fiscal year 2007 are provided to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who have been discharged from the state hospitals. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

EIGHTY-THIRD DAY, MARCH 31, 2007

(u) \$539,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to assist with the one-time start-up costs of two evaluation and treatment facilities. Funding for ongoing program operations shall be from existing funds that would otherwise be expended upon short-term treatment in state or community hospitals.

(v) \$550,000 of the general fund--state appropriation for fiscal year 2006 and \$150,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for enhancing rates to a facility that (i) is a licensed nursing home; (ii) is considered to be an "Institution for Mental Diseases" under centers for medicare and medicaid services criteria; (iii) specializes in long-term rehabilitation services for people with chronic mental illness who are chronically medically-compromised; and (iv) provides services to a minimum of 48 consumers funded by a regional support network. These amounts shall be provided in coordination with and under the auspices of a regional support network and shall enhance, and not supplant, other funding or in-kind resources currently being used for these purposes. These funds shall be used to cover costs incurred throughout fiscal year 2006 and fiscal year 2007 and ensure adequate compensation for extra medical care services, personal care services, and other incidental costs that are not fully covered in the current rate paid to the facility.

(w) \$450,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the mental health division, in collaboration with the children's administration and the juvenile rehabilitation services administration, to establish a pilot program to provide evidence-based mental health services to children. The mental health service or services to be provided under the pilot program must be selected from a list of evidence-based service options developed by the department, in consultation with a broadly representative group of individuals with expertise in children's mental health.

(i) The program site shall be selected through a request for proposal (RFP) process, open to counties or groups of counties, and shall be operational by December 2006.

(ii) Pilot site proposals shall be required to include: A designated lead agency and a commitment to work with community partners, including consumer/family representatives and representatives of the local mental health, juvenile justice, and child welfare systems and, at the applicant's discretion, may also include representatives of other child-serving systems such as health care and education; identification of areas of potential need based upon input from community partners; identification of the service or services that the pilot site would implement based upon community needs and resources; and demonstration of a commitment to participate in efforts that will ensure adherence to the chosen evidence-based practices and evaluate outcomes of implementation of the evidence-based practices.

(iii) The department shall contract with the University of Washington school of medicine's department of psychiatry and behavioral sciences division of public behavioral health and justice to provide support and assistance in all phases of the pilot program, including initiating, implementing, training providers, providing quality assurance, and monitoring implementation and outcomes.

(c) \$516,000 of the general fund--state appropriation for fiscal year 2006, ~~(\$1,917,000)~~ \$3,432,000 of the general fund--state appropriation for fiscal year 2007, and ~~(\$2,433,000)~~ \$3,954,000 of the general fund--federal appropriation are provided solely for community residential and support services. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$300. If this can be accomplished, additional clients may be served with excess funds provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.

(3) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(4) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(5) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is equivalent to the benefit provided in the 2003-05 biennium.

(6) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the

maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(7) \$2,221,000 of the health services account appropriation, \$5,402,000 of the general fund--federal appropriation, \$1,590,000 of the general fund--state appropriation for fiscal year 2006, and \$1,591,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) \$21,092,000 of the health services account appropriation and \$19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(9) In response to the federal directive to eliminate intergovernmental transfer transactions effective June 30, 2005, the department is directed to implement the inpatient hospital certified public expenditures program for the 2005-07 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. Hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of each medicaid inpatient fee-for-service claim payable by the medical assistance administration; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Medicaid fee-for-service claim amounts shall be established by applying the department's ratio of costs to charges payment methodology. The department shall provide participating hospitals with the information and instructions needed by the hospital to certify the public expenditures required to qualify for the federal portions of both the medicaid inpatient fee-for-service payments and the disproportionate share hospital payments. In the event that any part of the program including, but not limited to, allowable certified public expenditures, is disallowed by the federal government, the department shall not seek recoupment of payments from the hospitals, provided the hospitals have complied with the directions of the department for participation in the program. The legislature intends that hospitals in the program receive no less in combined state and federal payments than they would have received under the methodology that was in place during fiscal year 2005. The department shall therefore make additional grant payments, not to exceed the amounts specified in this subsection, to hospitals whose total payments under the program would otherwise be less than the total state and federal payments they would have received under the methodology in effect during fiscal year 2005. Payments under these new state grant and upper payment limit programs shall not exceed \$54,054,000 from general fund--state appropriations in fiscal year 2006, of which \$5,600,000 is appropriated in section 204(1) of this 2006 act and the balance in this section; ~~(\$47,474,000)~~ \$76,527,000 from general fund--state appropriations in fiscal year 2007, of which \$5,600,000 is appropriated in section 204(1) of this 2006 act and the balance in this section; and \$11,328,000 from the general fund--federal appropriations in this section.

The department shall submit an interim report of study findings by December 1, 2005, and a final report by November 15, 2006. The interim report shall include a comparison of the strengths and weaknesses of the current rate-setting system relative to those used by other state, federal, and private payers. The final report shall include recommendations on the design and implementation of a new or updated system that will promote equity among hospitals, access to quality care and improved health outcomes for patients, and cost-control and efficiency for taxpayers. The study should make use of complete and current cost data from a wide variety of hospitals, recognize unique aspects of hospital service delivery structures and medicaid payment systems in Washington, recognize impacts on productivity and quality of care that may result from hospital compensation, recruitment, and retention policies, and provide opportunities for comment and participation by key interest groups in the identification and assessment of alternatives.

Increases shall not be provided to those hospitals that are certified as critical access. Sufficient funds are appropriated in this section for Healthy Options contractors to increase hospital payment rates commensurate with the increases in fee-for-service payment rates.

(13) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(14) The medical assistance administration is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the administration determines it is cost-effective to do so.

(20) By October 1, 2005, the department shall report to the appropriate committees of the legislature on the potential fiscal and programmatic costs and benefits associated with an expansion of managed care pilot programs to SSI and other eligible medicaid elderly and disabled persons.

The report shall include an assessment of the relative costs and effectiveness of strategies including, but not limited to, tax credits and payment rate increases. The report shall further suggest alternative mechanisms and thresholds for varying tax credits and payment enhancements according to the extent to which a provider serves uninsured, medicare, and medicaid patients.

(22) The department is directed to pursue all available administrative remedies to dispute and reverse recent large retroactive charges by the federal medicare program for payment of medicare part B premiums on behalf of medicaid recipients, to the extent that such premiums are for periods when medicare coverage was in fact never provided the beneficiaries, and their care was instead fully covered by the state medicaid program. The department shall report to the fiscal committees of the legislature by December 1, 2006, on the actions it has taken to dispute and reverse these charges.

The assessment will involve gathering relevant data, reviewing that data, and analyzing the relationship between development and the conversion of forest land uses.

(e) Recommendations on: (i) Policy changes that would enhance the competitive position of Washington's forest products industry in Washington state; (ii) policy changes that would, to the extent possible, ensure that a productive forest land base continues to be managed for forest products, recreation, and environmental and other public benefits into the future; and (iii) policy changes that would enhance the recreational opportunities on working forest lands in the state.

This section of the reports shall also review reports prepared by the department over the past ten years that describe the investment returns from granted lands. The review of these previous reports shall compare and critique the methodology and indicators used to report investment returns. The review shall recommend appropriate measures of investment returns from granted lands.

(g) Analyze and recommend policies and programs to assist Cascade foothills area landowners and communities in developing and implementing innovative approaches to retaining traditional forestry while at the same time accommodating new uses that strengthen the economic and natural benefits from forest lands. For the purposes of this section, the Cascade foothills area generally encompasses the nonurbanized lands within the Cascade mountain range and drainages lying between three hundred and three thousand feet above mean sea level, and located within Whatcom, Skagit, Snohomish, King, Pierce, Thurston, and Lewis counties.

The work plan and schedule shall be based on a carryforward funding level, and shall be submitted to the office of financial management and to the fiscal committees of the legislature by June 30, 2006.

(15) \$397,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the department to work with appropriate stakeholders and state agencies in determining how privately owned lands, in combination with other land ownership such as public and tribal lands, contribute to wildlife habitat. The assessment will also determine how commercial forest, forest lands on the urban fringe, and small privately-owned forest lands that are managed according to Washington's forest and fish prescriptions, in combination with other forest management activities, function as wildlife habitat now and in the future.

((+7)) (16) \$50,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to establish a work group to study existing legislation affecting the oil and natural gas industry, and to make recommendations to that legal framework to improve the regulatory, technical, environmental,

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$9,112 per certificated staff unit in the 2005-06 school year and a maximum of \$9,476 per certificated staff unit in the 2006-07 school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts.

(6) Beginning with the 2005-06 school year, the superintendent of public instruction shall base depreciation payments for school district buses on the five-year average of lowest bids in the appropriate category of bus. In the final year on the depreciation schedule, the depreciation payment shall be based on the current state price. The superintendent may include a weighting or other adjustment factor in the averaging formula to ease the transition from the current-price depreciation system to the average depreciation system. .....	
TOTAL APPROPRIATION <del>(\$1,381,901,000)</del>	<u>\$1,374,850,000</u>

The appropriations in this section are subject to the following conditions and limitations:

- (1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.
  - (2)(a) The superintendent of public instruction shall use the excess cost methodology developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements to ensure that:
    - (i) Special education students are basic education students first;
    - (ii) As a class, special education students are entitled to the full basic education allocation; and
    - (iii) Special education students are basic education students for the entire school day.
  - (b) The S-275 and accounting changes in effect since the 2001-02 school year shall supercede any prior excess cost methodologies and shall be required of all school districts.
- (3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.
- (4) The superintendent of public instruction shall distribute state and federal funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.
  - (5)(a) For the 2005-06 and 2006-07 school years, the superintendent shall make allocations to each district based on the sum of:
    - (i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
    - (ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.
    - (b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.
  - (6) The definitions in this subsection apply throughout this section.

EIGHTY-THIRD DAY, MARCH 31, 2007

2007 REGULAR SESSION

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, \$18,940,000 of the general fund--state appropriation and \$28,698,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards exceed the amount appropriated in this subsection (8), the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at

children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(12) A maximum of \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(13) A maximum of \$100,000 of the general fund--federal appropriation shall be expended to create a special education ombudsman program within the office of superintendent of public instruction. The purpose of the program is to provide support to parents, guardians, educators, and students with disabilities. The program will provide information to help families and educators understand state laws, rules, and regulations, and access training and support, technical information services, and mediation services. The ombudsman program will provide data, information, and appropriate recommendations to the office of superintendent of public instruction, school districts, educational service districts, state need projects, and the parent and teacher information center.

(14) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(15) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services.

(16) \$1,400,000 of the general fund--federal appropriation shall be expended for one-time grants to school districts for the start-up costs of implementing web-based programs that assist schools in meeting state and federal requirements regarding individualized education plans.

(17) The superintendent, consistent with the new federal IDEA reauthorization, shall continue to educate school districts on how to implement a birth-to-three program and review the cost effectiveness and learning benefits of early intervention.

(18) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.
